

2013 Colorado State EMS Conference

November 7-10, 2013

Recommendations For Continuing Education

Welcome to the 2013 Colorado State EMS Conference!

This year's conference offers over 60 presentations which may be used for National Registry and/or Colorado EMS Provider recertification. To help plan and document continuing education (CE) received at this year's conference, this document is intended to provide suggestions based on the schedule as of October 31, 2013. The tables in this document include recommendations for categorizing each session plus the number of contact hours that may be applied towards National Registry and Colorado recertification requirements. The CE hours provided by each session may be appropriately used in multiple categories. The information provided is also intended to help guide local State-recognized education programs when assigning credit and hours necessary to approve EMS provider recertification applications. **Please remember that these are only recommendations.**
