Department of Revenue

Enforcement Division - Marijuana
1707 Cole Blvd., Suite 300
Lakewood, CO 80401

Text of MED email sent to MED Medical Marijuana Center Licensees, most recently on January 10, 2017.

As of January 1, 2017, Medical Marijuana patients can apply for their Medical Marijuana Registry Card online. Patients will also continue to have the option to register using the current paper application process as the process transitions to the online registration system. Active patients are not required to register online until it is time to renew.

The new card can be printed out by the patient or presented electronically. As with any purchase of Medical Marijuana, the new patient registry cards must be presented along with a copy of the patient's ID in order to make a purchase - **see Rule M 405 "Acceptable Forms of Identification for Medical Marijuana Sales."**

In addition, Medical Marijuana Caregivers who cultivate or transport marijuana (*not a MED licensed Medical Marijuana business*) will be required to register their cultivation and transportation addresses with the Colorado Department of Revenue (CDOR) starting on January 1, 2017. Once registered, the caregiver will also be able to print a Medical Marijuana Caregiver Card to present along with a copy of the patient's card when purchasing on the behalf of a patient.

This means that over the next calendar year Centers will be presented with different versions of the following:

- Application packets (first time patients only):
 1. Current paper application and physician certification pre-printed forms
 2. Printouts of patient registry application and physician certification printed on a personal printer

- Patient Cards:
 1. Current purple cards with the card number on the back - prior to the 2017 expiration date of the card.
 2. New registry cards (issued beginning 1/1/2017) with the patient registration number on the front - **on the lower left corner of the card.**
 3. Copy of a patient's registry card (issued beginning 1/1/2017) presented electronically or printed out on a personal printer - **on which the registry number will appear on the lower left corner of the image of the card.**

- Documentation from the Caregiver:
 1. Copy of any of the patient cards listed above presented by a transporting caregiver who is purchasing on behalf of a patient.
 2. Copy of new caregiver card presented electronically or printed out on a personal printer.
