

SPECIAL LOCAL NEED REGISTRATION – 24(c)

SUPPLEMENTAL LABELING FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF COLORADO

Enhance®

SEED PROTECTANT

EPA REG. NO. 400-554

EPA SLN NO. CO-080004

For the use of ENHANCE® as a treatment on grass seed:

Bromus species (such as *B. riparius*, *B. marginatus* and *B. carinatus*),

Elymus species (Bottlebrush squirreltail, Biq squirreltail, etc.) and *Hordeum brachyantherum*.

This labeling must be in the possession of the user at the time of pesticide application.

Follow all applicable directions, restrictions, and precautions on this supplemental label and the EPA-registered label.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Active Ingredients:

Captan	19.55%
Related Derivatives.....	0.45%
Carboxin.....	20.00%
Other Ingredients:	60.00%
Total:.....	100.00%

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER • PELIGRO

Corrosive. Causes irreversible eye damage. Harmful if absorbed through skin or inhaled. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing dust. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are polyethylene and polyvinylchloride. If you want more options, follow the instructions for category A on an EPA chemical resistance category selection chart.

All Loaders, Applicators and other Handlers must wear: long-sleeved shirt and long pants; shoes plus socks; chemical-resistant gloves, except when sewing bags of treated seed; protective eyewear (goggles, face shield, or safety glasses); chemical-resistant apron when loading, cleaning up spills, or cleaning equipment; NIOSH approved dust mist filtering respirator with MSHA/NIOSH approval number prefix TC-21C or a NIOSH-approved respirator with any N², R, P or HE filter.

Persons drying or bagging treated seed, sewing bags containing treated seed, or handling unbagged seed are handlers and must wear handler personal protective equipment.

ENVIRONMENTAL HAZARDS

This chemical is **toxic to fish**. Do not contaminate water when disposing of equipment washwaters or rinsate or by disposal of wastes. Treated seed exposed on soil surface may be hazardous to birds. Cover or collect spilled seeds.

DIRECTIONS FOR USE – GRASS SEED

For the use of ENHANCE® Seed Protectant as a treatment on grass seed: *Bromus* species (such as *B. riparius*, *B. marginatus* and *B. carinatus*), *Elymus* species (Bottlebrush squirreltail, Biq squirreltail etc.), and *Hordeum brachyantherum*. ENHANCE® helps protect grass seed against seed rot and damping-off diseases such as *Pythium* and *Rhizoctonia solani* and helps to control seedborne smut.

NOT for use immediately before planting (such as through use of hopper boxes, planter boxes, slurry boxes, or tractor-mounted treaters), or any other uses covered by the Worker Protection Standard, 40 CFR part 170.

DIRECTIONS: Measuring cup enclosed (One level cup holds approximately one ounce of product.)

GRASS SEED: Apply 6.4 ounces of ENHANCE® per 100 pounds of seed. This rate is equivalent to using 0.8 grams a.i. of carboxin per kilogram of grass seed, and 0.76 grams a.i. of captan per kilogram of grass seed.

For best results, pre-measure the appropriate amount of ENHANCE® and an EPA-approved dye, and place them in a mixing tank or other suitable device with the seed. Mix thoroughly to evenly coat the grass seed.

SEED LABELING: The U.S. Seed Act requires that treated seed be labeled with the following information:

“TREATED SEED. This seed treated with carboxin and captan. Do not use treated seed for food, feed, or oil purposes.”

USE RESTRICTION: Do not graze or harvest for food or feed. Use with an EPA-approved dye that imparts an unnatural color to the seed.

24c Registrant:

Chemtura Corporation
