Sec. 13-24. Permit for excavations.

(A) Permit required. It is unlawful for any person, other than an employee of the City in the course of his or her employment, to construct, reconstruct, repair or alter any curb cut, excavation, driveway or other opening to or inter-section with the surface of any street, alley, sidewalk, curb or other public place or to excavate or make any opening in or under the surface of such streets, alleys, sidewalks, curbs or other public places without first obtaining a permit therefor.

(B) Application. An applicant for a permit hereunder shall submit to the City Clerk a processing fee as set forth in the City's fee schedule and an application showing:

- (1) Name and address of the owner or agent in charge of the property abutting the proposed work area;
- (2) Name and address of the party doing the work;
- (3) Location of the work area;
- (4) Attached plans showing details of the proposed alteration (the "operation");
- (5) Estimated cost of the alteration;
- (6) Such other information about the operation as the Public Works Department shall find reasonably necessary to the determination of whether a permit should issue hereunder.

(C) Standards for issuance of permit. The City Clerk shall issue a permit hereunder when:

- (1) The plans for the proposed operation have been reviewed, approved and signed off on by the Public Works Department and the Police Chief in all cases, and the Building Official when appropriate.
 - (2) The work shall be done according to the standard specifications of the City for public work of like character unless the operation abuts or intersects with a state highway, in which case all standards set by the Department of Transportation for entrances to state highways shall be met.
 - (3) Neither the construction nor the use of the completed operation will unreasonably interfere with vehicular and pedestrian traffic, the demand and necessity for parking spaces and the means of egress to and from the prop-erty affected and adjacent properties.
 - (4) The health, welfare and safety of the public will not be unreasonably impaired.
- (Ord. 8 §1, 2006)
