4. Standard and Incentive performance measure scope document

Melissa Eddleman, Danielle Culp and **Jerry** (HCPF) will lead the discussion on this topic to understand concern: 1) the incentive scope document does not have the covered diagnoses list from Amendment six of the Behavioral Health Organization contract. Amendment six has ranges of diagnoses which is not how the scope document lists the covered diagnoses, 2) if we include Place of Service 02 for telemedicine, the incentive scope document will have to be changed. There are measures that list the procedure code and place of service combinations which will be affected by this change, 3) if concern one and two effect the standard scope document. 4) other issues.

5. Model Notice of Adverse Benefit Determination

Troy Peck (HCPF) will review this topic with meeting attendees.

Our mission is to improve health care access and outcomes for the people we serve while demonstrating sound stewardship of financial resources.
