

## **The Future of CHP+ Goals**

**Goal:** By September 2017, *all* children and pregnant women currently served by CHP+ will have access to comparable sources of physical and behavioral health and dental coverage with respect to affordability, adequacy of benefits and availability of services.

Specific goals include:

### **Coverage**

All children and pregnant women currently served by CHP+ have access to physical and behavioral health and dental insurance coverage.

### **Benefits**

The core physical, behavioral and dental benefits of the new sources of coverage are at least comparable to current CHP+ benefits in terms of covered services and the scope of those services.

### **Affordability**

All children and pregnant women currently served by CHP+ have coverage options that are affordable and comparable to current CHP+ costs.

### **Access**

All children and pregnant women currently served by CHP+ have adequate access to care, services and providers.

### **Health Outcomes**

Children and pregnant women currently served by CHP+ maintain or improve health outcomes.

### **Navigation**

A family's ability to navigate coverage, benefits and care systems is streamlined.

### **Administration**

Administrative systems and processes will be simplified and streamlined to the greatest extent possible and will enable continuity of care.

### **Financing**

Coverage options for children and pregnant women currently served by CHP+ will create greater cost efficiencies and long-term feasibility.

### **Integration With Broader Health Reform Efforts**

Children and pregnant women currently served by CHP+ will have the opportunity to participate in broader health system reform efforts in Colorado.
