

Professional Staff Induction Program

In accordance with law, the Mtn BOCES shall provide an induction program for the continuing professional development of teachers, specialized service professionals, principals and administrators with initial licenses just entering the profession.

The purpose of the induction program under the educator licensing law shall be to promote purposeful learning by inductees rather than learning about the Mtn BOCES and teaching through trial and error.

The induction program shall provide for supervision by mentors and ongoing professional development and training, including ethics and performance evaluations in accordance with the Mtn BOCES's or applicable school district's performance evaluation system.

The induction program shall include four major components:

- ï Orientation of newcomers to new professional roles**
- ï Socialization and transition problems normally faced by newcomers to organizations**
- ï Technical skill refinement and development including ethics**
- ï Performance assessment**

Through the induction program, inductees shall be provided information about Colorado's academic standards, professional educator standards, and educator roles and responsibilities.

A mentor shall be selected for each inductee to model the professionalism of the teaching staff employed by the Mtn BOCES.

It is recognized that the content and experience needed by an inductee will vary, based on each individual's previous experiences prior to receiving an initial license.

The Mtn BOCES shall establish criteria to evaluate an inductee who has successfully completed the program. Among the important criteria shall be completion of activities listed in the inductee's professional growth plan, evidence in the inductee's portfolio of meeting or exceeding the professional educator standards, satisfactory summative evaluation by the supervisor and recommendations by the mentor and supervisor.

The *Executive Director* _____ shall make a recommendation to the ***district Superintendent*** _____ regarding the completion of the induction program. The _____ ***Mtn BOCES Executive Director*** _____ shall be responsible for recommending the inductee to the state for a professional license.

Nothing in this policy nor in the induction program itself shall be construed to imply in any manner the establishment of any property rights or expectancy or entitlement to continued employment. A favorable recommendation that an inductee receive a professional teaching license at the conclusion of the induction program is a decision separate and distinct from any decision about the inductee's **continued** employment in the Mtn BOCES or applicable district. **All employment decisions remain within the sole and continuing discretion of the Board.**

Mtn BOCES personnel shall establish a process to evaluate the BOCES's induction program.

*NOTE 1: By law, all initial license holders (teachers, specialized service professionals, principals and administrators) are required to complete an approved induction program prior to professional licensure, **unless the State Board of Education has waived the induction program requirements in accordance with its applicable rules.** BOCES may develop their own induction program or work in cooperation with other districts, BOCES or institutions of higher education. The program must be approved by the State Board of Education.*

NOTE 2: The State Board of Education may grant a waiver of the induction program upon a sufficient showing that implementation would cause extreme hardship to the district. The district's application for waiver of the induction program requirement must include a plan for support, assistance and training of initially-licensed educators. C.R.S. 22-60.5-
