

## **State provides \$9.5 million for small community wastewater and drinking water system improvements**

DENVER -- Fifteen community drinking water and wastewater systems in small communities throughout Colorado will receive a total of \$9.5 million to fund planning, design or construction of public water systems or treatment works necessary for the protection of public health and water quality.

Funding for the grants was provided by the state Legislature under Senate Bill 09-165 and SB14-025. Governmental agencies, nonprofit public water systems and counties representing unincorporated areas of fewer than 5,000 people were eligible to apply for grants of up to \$950,000.
