

# *COLORADO INDIGENT CARE POPULATION STUDY*

Alignment of public and private payers of Health Care  
is vital in order to advance delivery system  
transformation and improve population health for all  
Coloradans.

# *CICP Study Recommendations*

The Commission should consider the following:

- Increasing the FPL level in the CICP.
- Lowering the CICP copayments for hospital services.
- Recruiting CICP-eligible providers in areas of the state that may have gaps in care.

# *CICP Study Findings*

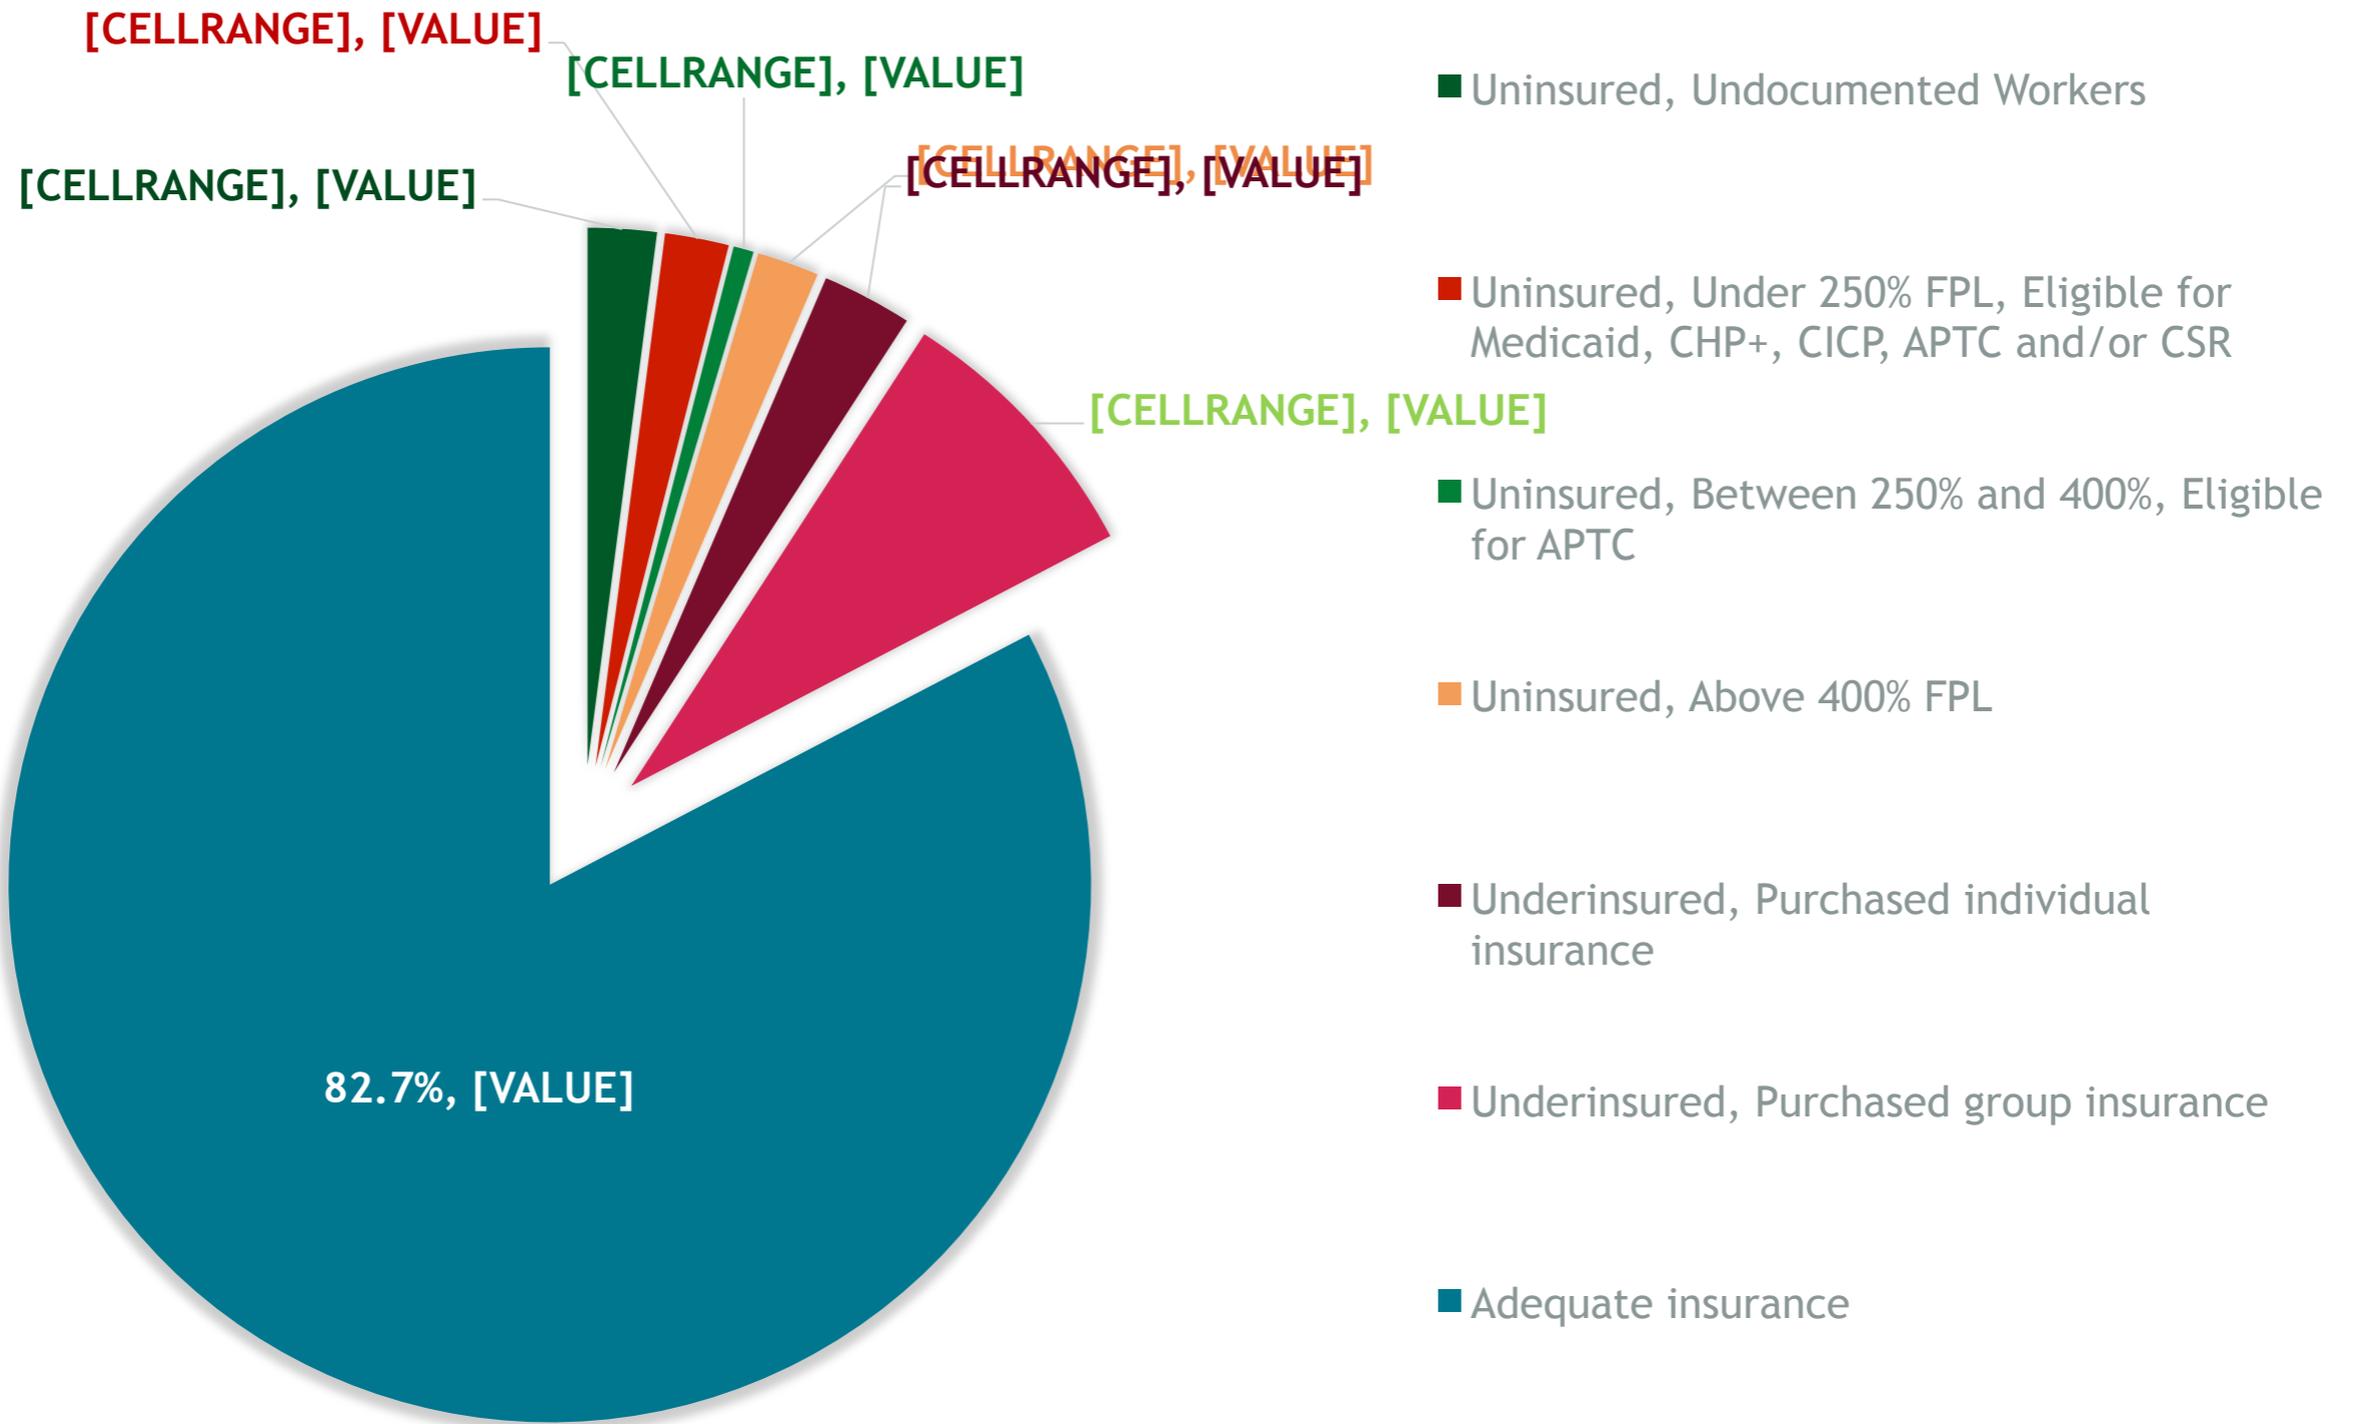

- At certain income levels individuals will pay less overall if a silver plan with CSR is chosen.
- The West and Grand Junction rating regions, premium and out-of-pocket costs exceed average APCD costs by 25% to 45%, respectively.
- Costs for outpatient hospital services are more than 100% higher in the West rating region as compared to Boulder and Denver.
- Cost in the West rating region are 20% higher than the statewide average.
