

LANDFILL CELL 3

All radioactive materials have been disposed in Cell 3 at CHDT, which was constructed in 2006. Cell 3 was permitted by CDPHE in 2006; the approval letter is included in Attachment B. The disposal area for radiologically impacted materials is surveyed after the placement of the daily cover to assure proper cover. No maintenance activities were required for the secure cell itself except for routine removal of leachate water collected in the sump of the cell in order to prevent leachate headspace from exceeding regulatory limits.

Colorado Department
of Public Health
and Environment

December 19, 2006

Mr. John H. Kehoe
General Manager
Clean Harbors Deer Trail, LLC
108555 East Highway 36
Deer Trail, CO 80105

Dear Mr. Kehoe:

The Hazardous Materials and Waste Management Division ("the Division") of the Colorado Department of Public Health and Environment has reviewed the Revision 1 – Final Report of Construction Quality Assurance, Secure Cell No. 3 Report and the Interim Phase 1 Waste Filling Plan for Secure Cell Number 3. The Division approves both of these reports and waste placement activities may commence in Secure Cell Number 3.

If you have any questions regarding this correspondence, please contact Tanell Roberts at 303 692-3355.

Sincerely,

Joe Schieffelin, Manager
Hazardous and Solid Waste Program
Hazardous Materials and Waste Management Division
