COLORADO WASTE TIRE PROGRAM
End Users Tire Bale Approval Form

6 CCR 1007-2, Part 1, Section 10.12 requires you to submit this form if your rebate request involves the end use of tire bales. The purpose of this form is, in part, to ensure the local governing body where tire bales are to be end used has approved the use of tire bales. You must provide a copy of this form for each address where tire bales will be end used.

Section #1: End Users (required)

*End User Business Name

Address

City State Zip

Phone Fax

E-mail Address Web Address

Waste Tire Certificate of Registration Number

*Installer of tire bales

End use address where tire bales were installed:

same address as above

Client or Business Name

Address

City State Zip

Type of tire bale end use (check all that applies):

- Civil Engineering Windbreakers Fencing
Animal Corrals Building Construction
Other:

Total tons to be end used at address:

Timeframe for end use (e.g. installation) of tire bales (mm/dd/yy):

to

END USER CERTIFICATION: I certify the tire bales were installed either for a permanent engineered structure, stamped and sealed by a Colorado Certified Professional Engineer (excludes fencing, windbreakers, or corrals), or on agricultural land using galvanized steel baling wire and installed to facilitate tire bale stability and longevity (including fencing, windbreakers, or corrals). I certify that documentation exists that verifies this end use of tire bales as defined in the Rules governing the Waste Tire End Users Fund [6 CCR 1007-2, Part 1, Section 10.12]. I certify that I will provide additional documentation, when requested by the department to verify that the tire bales were installed as defined in the Rules governing the Waste Tire End Users Fund [6 CCR 1007-2, Part 1, Section 10.12].
