

Notice of Registrant's Rights

As required by Colorado Rules and Regulations Pertaining to Radiation Control, this serves as notification for the service company or qualified inspector providing installation services/servicing or certification evaluation inspection of your x-ray producing machine(s) has dual authorization to provide both services.

The intent of this Regulation is to allow the registrant an option for selection of an independent service company or qualified inspector service, if preferred. The specific regulation is:

According to 6 CCR 1007-1, Part 2, 2.4.7.1, states that whenever a business relationship exists between the qualified inspector and services and servicing provider, "Notice of Registrant's Rights" Form R-65 shall be furnished to the registrant prior to beginning the service or evaluation, including:

1. When a qualified inspector is also authorized to perform services and servicing;
2. When a qualified inspector is also a qualified expert; and
3. When a qualified provider is a member of the same corporation, partnership or other formal business relationship.

The completed form R-65 must be provided to the registrant/customer prior to beginning the installation, service or certification evaluation.
