

# Accountable Care Collaborative: Seeking County Input on Medicaid Enrollment

*June 30, 2015*

The Department of Health Care Policy and Financing is seeking stakeholder input regarding the enrollment of residents from Elbert and Larimer Counties in the [Accountable Care Collaborative \(ACC\)](#). The ACC is Medicaid’s primary health care delivery system in Colorado. The ACC consists of seven [Regional Care Collaborative Organizations \(RCCOs\)](#) that connect Medicaid clients to Medicaid providers and help clients find community and social services in their area.

## Purpose

The Department would like to hear from the residents of Elbert, Larimer, and Weld Counties regarding the factors that are important to them when accessing health care. This information will inform the regional ACC enrollment strategy for Medicaid clients of Elbert and Larimer Counties.

On April 21, 2015, [the Department announced key decisions](#) that have been made for the next version of the ACC that will be in place starting July 1, 2017. The Department will contract with one administrative entity in each region of the state to be responsible for the duties currently performed by the Regional Care Collaborative Organizations (RCCO) and Behavioral Health Organizations (BHO). To make this integration possible, the regional enrollment map was changed. While the Department has come to a decision regarding where the majority of the [counties](#) will be assigned in the new regional map, there are two counties where further stakeholder input is necessary: **Elbert** and **Larimer**.
