¹ Liquor Tax is the amount of tax calculated on the taxable gallons as reported by liquor manufacturers and wholesalers on monthly liquor excise tax returns (DR 0442) for the stated filing period. All filing data is preliminary and subject to change.

² Gallons are calculated on taxes owed as reported by manufacturers and wholesalers on monthly liquor excise tax returns (DR 0442).

³ Spirituous liquor and wine are taxed on the amount of liters sold. Taxable liters are converted to gallons for this report.

⁴ The amount of wine excise tax reported does not include additional surcharges or fees. Surcharges and fees are reported separately.

⁵ The Colorado Winery Surcharge is a graduated tax rate based on the amount of wine liters manufactured and sold throughout the fiscal year (July 1 through June 30). It is calculated at \$0.05/liter for the first 9,000 liters, \$0.03/liter for the next 36,000 liters, and \$0.01/liter in excess of 45,000 liters manufactured and sold during the fiscal year. The Colorado Winery Surcharge tax rate resets to \$0.05/liter at the beginning of each fiscal year in July.

⁶ The displayed values are rounded for reporting purposes. The figures in this table might not sum to total due to rounding.
