

IDS Multifunction Printers/Copiers (MFP) Program Brief

The IDS Multifunction Printer (MFP) Program partners with the Office of Information Technology (OIT) to provide quality all-in-one office machines to metro-area state agencies that incorporate functionality of multiple devices, with combinations of the following features to meet your business needs, at a reasonable price: printer, scanner, photocopier, fax, and e-mail. All machines in our catalog share the same platform, making it easier to navigate through any device at any of our agencies. MFP also provides Consulting Services including print education, track analyze statistics, print assessments, digitized workflow, onramp solutions, and manage print services.
