MPRRAC Meeting

Facilitator – Lila Cummings

Presenters – Kate Davidson
Richard Delaney
Jesse Durfee
Elizabeth Freudenthal
Elizabeth Lopez
Alex Weichselbaum

November 18, 2016
9:00 AM – 12:00 PM
Agenda

Meeting Minutes Review 9:00–9:15 AM
Guiding Principles & Participation 9:15–9:25 AM
2016 Recommendation Report 9:25–9:45 AM
Physician Services Presentation (pt. 1) 9:45–10:30 AM
Break 10:30–10:40 AM
Physician Services Presentation (pt. 2) 10:40–11:30 AM
Stakeholder Comment 11:30–11:55 AM
Next Steps 11:55 AM–12:00 PM
Meeting Minutes Review
Guiding Principles & Participation
2016 Recommendation Report
Physician Services
Physician Services Overview

- Physician Services are services furnished in the office, the patient’s home, a hospital, a nursing facility or elsewhere.

- Physician Services are a mandatory State Plan benefit.

- All Physician Services appear on the Fee Schedule.

- Physician Services will be reviewed by this committee over two years (see the rate review five-year schedule).
Physician Services Overview

Year Two Review (this year):
- Cardiology
- Cognitive Capabilities Assessments
- ESRD and Dialysis Treatments
- Gastroenterology
- Ophthalmology
- Ear, Nose, and Throat
- Respiratory
- Speech Therapy
- Vascular

Year Three Review:
- Evaluation & Management
- Radiology
- Vaccines and Immunizations
- Psychiatric Treatment
- Allergy
- Sleep Studies
- Neurology
- Motion Analysis
- Genetic Counseling
- Health and Behavior Assessments
- Infusions and similar products
- Diagnostic and Therapeutic Skin Procedures
- Physical Therapy
- Treatment of Wounds
- Miscellaneous Services
Preliminary Analysis

**Physician Services Overview**

FY 2015-16 Physician Premiums Expenditure within total Premiums Expenditure (left) and FY 2015-16 Physician Paid Claims for Year Two of the Rate Review Process within Total Physician Paid Claims (right).

- **Physician Premiums Expenditure FY 2015-16**: $717,104,793, 9%
- **Total Premiums Expenditure FY 2015-16**: $6,837,385,152, 91%

- **Paid Claims (MMIS) for Physician Services for Year Two Rate Review FY 2015-16**: $60,435,307, 8%
- **Total Paid Claims (MMIS) for Physician Services FY 2015-16**: $723,630,129, 92%
Preliminary Analysis

**Physician Services Overview**

FY 2015-16 Year Two Physician Services Paid Claims

- **Ophthalmology**: $23,185,353 (38.36%)
- **Speech Therapy**: $21,376,810 (35.37%)
- **Cardiology**: $6,496,705 (10.75%)
- **Cognitive Capability Assessment**: $4,470,158 (5.74%)
- **Vascular**: $3,470,158 (5.74%)
- **Respiratory**: $2,443,294 (4.04%)
- **Ear, Nose and Throat**: $1,481,574 (2.45%)
- **ESRD and Dialysis**: $952,035 (1.58%)
- **Gastroenterology**: $904,603 (1.50%)
- **Other**: $124,775 (0.21%)

**TOTAL**: $21,376,810

**Preliminary Analysis**

**FY 2015-16 Year Two Physician Services Paid Claims**

- **Ophthalmology**: $23,185,353 (38.36%)

Physician Services Workgroup Impressions

• Commonly referred to as “professional” services; (workgroup’s experience that a minority of the services are provided by physicians).

• Two major groupings of services:
  ➢ Evaluation and treatment services: Ophthalmology and Speech
  ➢ Diagnostic testing: Others

• Two major “typical” locations:
  ➢ Hospital-based: Cardiology, Vascular, Gastroenterology
  ➢ Clinic-based: Ophthalmology, Speech, Cognitive Capabilities Assessment, Ear, Nose, and Throat, Respiratory
Physician Services Presentation Structure

- Service Description (including utilizer and provider characteristics)
- Physician Services Workgroup Impressions
- Preliminary Rate Comparison Analysis
- Utilization and Access Analysis
Physician Services - Ophthalmology
Ophthalmology – Service Description and Utilizer and Provider Characteristics

- Eye exams, as well as screening and diagnosing problems associated with the eye system (CPTs 92002-92499; HCPCS S0620 and S0621)

- Utilizers tend to be children; more females utilizing services

- Predominantly provided in the office setting

- A targeted rate increase (TRI) for eye exams began in 2014 and a TRI for retinal screening and diagnostic services, as well as frames and lenses, began in 2015
Workgroup Impressions - Ophthalmology

- Three groups of codes
  - Eye exams: Performed by optometrists, ophthalmologists
  - Diagnostic tests (ex., visual field testing, computerized picture of retina): Performed by technicians, interpreted by optometrists or ophthalmologists
  - Corrective lens fitting (glasses, contacts): Performed by opticians

- Typical setting: office or clinic
Preliminary Analysis

- *Repriced Colorado* refers to the amount Health First Colorado would have paid in FY 2015-16, using Health First Colorado’s FY 2016-17 Fee Schedule rates and FY 2015-16 utilization.
- *Repriced to Comparator* refers to the amount Health First Colorado would have paid in FY 2015-16, using a comparator’s rates and Health First Colorado FY 2015-16 utilization.
- *Colorado to Comparator* refers to the percent of the comparator rates that Health First Colorado pays.
- Medicare rates are used as comparator rates when available; otherwise, an average of other state Medicaid rates is used for comparison. The combined benchmark incorporates both comparators.
Preliminary Analysis

**Ophthalmology – Utilization and Access Analysis**

![Map showing utilization and access scores](image)

*Index Score: 45 - 80*

*Legend: The map represents the index score distribution across different regions.*
Physician Services – Speech Therapy
Speech Therapy – Service Description and Utilizer and Provider Characteristics

- Services to address and remedy speech language deficits (CPTs)
- Utilizers tend to be children; more males utilizing services
- Most often provided in the outpatient hospital and office setting
**Workgroup Impressions – Speech Therapy**

- Services typically performed by speech-language pathologists (SLP)

- Two groups of codes
  - Diagnosis: Ex: evaluating speech or swallowing function
  - Therapy: Ex: Speech therapy, feeding therapy

- Typical setting: school, outpatient hospital, office, and home.
### Preliminary Analysis

**Speech Therapy – Rate Comparison Analysis**

- *Repriced Colorado* refers to the amount Health First Colorado would have paid in FY 2015-16, using Health First Colorado’s FY 2016-17 Fee Schedule rates and FY 2015-16 utilization.
- *Repriced to Comparator* refers to the amount Health First Colorado would have paid in FY 2015-16, using a comparator’s rates and Health First Colorado FY 2015-16 utilization.
- *Colorado to Comparator* refers to the percent of the comparator rates that Health First Colorado pays.
- Medicare rates are used as comparator rates when available; otherwise, an average of other state Medicaid rates is used for comparison. The combined benchmark incorporates both comparators.
Preliminary Analysis

**Speech Therapy – Utilization and Access Analysis**
Physician Services - Cardiology
Cardiology – Service Description and Utilizer and Provider Characteristics

• Testing and treating the heart (CPTs 92920-93799)

• Utilizers of cardiology services tend to be adults; more females utilizing services

• Most often provided in the outpatient hospital setting (including Emergency Room)
Workgroup Impressions – Cardiology

Hospital-based diagnostic studies
• Example: Echocardiogram
• Ordered by many different types of physicians
• Performed by technicians and interpreted by cardiologists
• Typical setting: Inpatient hospital, outpatient hospital, cardiology office

Electrocardiogram (EKG)
• Ordered by many different types of physicians and interpreted by cardiologists and some primary care physicians
• Typical setting: Office, inpatient/outpatient hospital, etc.

Catheter procedures (diagnostic and therapeutic)
• Example: Cardiac catheterization, coronary artery stent placement
• Performed by cardiologists
• Typical setting: outpatient or inpatient hospital
Preliminary Analysis

**Cardiology – Rate Comparison Analysis**

- *Repriced Colorado* refers to the amount Health First Colorado would have paid in FY 2015-16, using Health First Colorado’s FY 2016-17 Fee Schedule rates and FY 2015-16 utilization.
- *Repriced to Comparator* refers to the amount Health First Colorado would have paid in FY 2015-16, using a comparator’s rates and Health First Colorado FY 2015-16 utilization.
- *Colorado to Comparator* refers to the percent of the comparator rates that Health First Colorado pays.
- Medicare rates are used as comparator rates when available; otherwise, an average of other state Medicaid rates is used for comparison. The combined benchmark incorporates both comparators.
Preliminary Analysis

Cardiology – Utilization and Access Analysis

[Map showing index scores across different regions]
Physician Services – Cognitive Capabilities Assessment
Cognitive Capabilities Assessment – Service Description and Utilizer and Provider Characteristics

- Services are generally types of depression screens, developmental testing and screening (CPTs 96101-96127, HCPCS G8431 and G8510)

- Majority of utilizers are children

- Most often provided in the office setting
Workgroup Impressions – Cognitive Capabilities Assessment

Screening Tests
• Screen for developmental delay
  ➢ Performed by pediatricians or family practice (or staff)
• Screen for depression
  ➢ Performed by primary care provider (or staff)
• Typical setting: Office

Psychological testing
• Example: Neuropsychiatric testing, developmental testing
• Performed by clinical psychologists, psychiatrists (occasionally others)
• Typical setting: Office
Preliminary Analysis

Preliminary Analysis

Cognitive Capabilities Assessment – Utilization and Access Analysis
Physician Services - Vascular
Vascular – Service Description and Utilizer and Provider Characteristics

• Testing the function of arteries and veins (CPTs 93880-93998)

• Utilizers tend to be adults; more females utilizing services

• Most often provided in the outpatient hospital setting
Workgroup Impressions – Vascular

Ultrasound/Doppler-based diagnostic studies (all but one)
- Example: Ultrasound of leg to detect blood clot
- Ordered by many different types of physicians
- Performed by technicians and interpreted by radiologists
- Typical setting: Inpatient hospital, outpatient hospital

Ankle/brachial index
- Ordered by many different types of physicians and interpreted by cardiologists and some primary care physicians
- Typical setting: Inpatient/outpatient hospital, occasionally office

Preliminary Analysis

Vascular – Utilization and Access Analysis
Physician Services - Respiratory
Respiratory – Service Description and Utilizer and Provider Characteristics

- Testing and treating breathing issues (CPTs 94002-94799)
- Majority of the utilizers are children
- Most often provided in the office setting
Lung diagnostic tests (often called PFTs)
- Ordered by many different types of physicians
- Performed by technicians and interpreted by pulmonologists or PCPs
- Typical setting: Outpatient hospital, Inpatient hospital, office

Administration of breathing treatments (2 codes)
- Ordered by many different types of physicians
- Typical setting: Inpatient hospital, emergency department, office
**Preliminary Analysis**

**Respiratory – Rate Comparison Analysis**

- *Repriced Colorado* refers to the amount Health First Colorado would have paid in FY 2015-16, using Health First Colorado’s FY 2016-17 Fee Schedule rates and FY 2015-16 utilization.
- *Repriced to Comparator* refers to the amount Health First Colorado would have paid in FY 2015-16, using a comparator’s rates and Health First Colorado FY 2015-16 utilization.
- *Colorado to Comparator* refers to the percent of the comparator rates that Health First Colorado pays.
- Medicare rates are used as comparator rates when available; otherwise, an average of other state Medicaid rates is used for comparison. The combined benchmark incorporates both comparators.
Preliminary Analysis

Respiratory—Utilization and Access Analysis
Physician Services – Ear, Nose, and Throat (ENT)
ENT – Service Description and Utilizer and Provider Characteristics

• Hearing tests and hearing device fitting (generally, CPTs 92502-92700; Speech Therapy is analyzed separately)

• Utilizers tend to be children
Workgroup Impressions – ENT

Hearing tests
• Ordered by PCPs, otolaryngologists, others
• Performed by audiologists
• Typical setting: Office

Tympanometry
• Ordered and performed by pediatricians, otolaryngologists (often performed by staff)

Physician diagnostic tests
• Ex: fiberoptic scope to view throat and larynx, ear microscopy
• Performed by otolaryngologists
• Typical setting: Office
## Preliminary Analysis

- *Repriced Colorado* refers to the amount Health First Colorado would have paid in FY 2015-16, using Health First Colorado’s FY 2016-17 Fee Schedule rates and FY 2015-16 utilization.
- *Repriced to Comparator* refers to the amount Health First Colorado would have paid in FY 2015-16, using a comparator’s rates and Health First Colorado FY 2015-16 utilization.
- *Colorado to Comparator* refers to the percent of the comparator rates that Health First Colorado pays.
- Medicare rates are used as comparator rates when available; otherwise, an average of other state Medicaid rates is used for comparison. The combined benchmark incorporates both comparators.
Preliminary Analysis

**ENT – Utilization and Access Analysis**
Physician Services - Gastroenterology
Gastroenterology – Service Description and Utilizer and Provider Characteristics

• Diagnosing and treating conditions and diseases of the digestive system (CPTs 91000-91299)

• Utilizers are adults; more females utilizing services

• Most services are provided in the outpatient hospital and office setting
Workgroup Impressions – Gastroenterology

- All are diagnostic tests related to the gastrointestinal tract
- Examples: Various tests for gastroesophageal reflux (GERD), test of anal sphincter function
- Ordered by various physicians (most often gastroenterologists)
- Performed by technicians
- Typical setting: Outpatient hospital, office, inpatient hospital
## Preliminary Analysis

Preliminary Analysis

Gastroenterology – Utilization and Access Analysis
Physician Services – ESRD and Dialysis
ESRD and Dialysis – Service Description and Utilizer and Provider Characteristics

- Dialysis is the clinical purification of blood as a substitute for the normal functioning of the kidney (CPTs 90935-90999)
- Bulk of utilizers are between 41 and 60 years old; more males utilizing services
- Most often provided in the inpatient hospital setting, followed by dialysis centers
## Preliminary Analysis
