Acute Home Health

- When client transfers from one home health provider to another, new provider should contact previous provider to learn:
 - If acute services were billed
 - First & last date of service of most current acute episode
 - This information allows provider to perform and bill acute services according to 60-day rule

Acute Home Health

Acute episode:

- does not mean 60 days of services
- starts on first date of service billed & continues for:
 - 60 calendar days
 - or until condition stabilizes or resolves
- Hospitalizations or discharges do not restart episode
 - Acute episode may start on Julian date 001 & may last through Julian date 060
 - Next episode cannot start until Julian date 071 (10 calendar days)
 - Must be new or change in condition
- When client needs more than 60 calendar days of care:
 - provider should complete Long-Term Home Health (LTHH) prior authorization request near end of 60 day acute period

Long Term Home Health

- Submit claims for LTHH & Acute HH revenue codes on separate claims
 - If LTHH and Acute HH services are submitted on same claim (or same dates of service) claim will deny
 - Processing system counts denied services as part of an acute 10-day break period
- Dates on CMS 485 must include PAR start-of-care dates

Common Home Health Denial Reasons

Prior Authorization

conflict

EPSDT PDN
Condition Code is
missing or invalid

LTHH and Acute HH
revenue codes on
same claims

HH LTC / Acute care

If client in Managed
Care Organization
(MCO), bill Acute
HH to the MCO

LTC HH is over daily
