EPSDT Program

- **Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Program**

 - Ages birth through 20 years
 - Emphasizes preventive care
 - Focuses on early identification and treatment of medical, dental, vision, hearing, and developmental concerns

EPSDT Program

- EPSDT establishes a regular pattern of healthcare through routine health screenings, diagnostic, treatment services
 - See Colorado Periodicity Schedule for recommended well child visits
 - EPSDT well child screenings must include testing for lead poisoning
 - at 12 and 24 months or between 36 and 72 months if not previously tested
 - This is still a CMS requirement for all Medicaid eligible children until Colorado can provide enough data to show it is not a concern in this region

EPSDT - D = Diagnostic

- When a screening indicates the need for further evaluation, diagnostic services must be provided
 - The referral should be made without delay
 - Provide follow-up to make sure that the child receives a complete diagnostic evaluation

EPSDT - T = Treatment

- Health care must be made available:
 - Treatment or other measures to correct/improve illnesses or conditions discovered by the screening
- All services must be provided:
 - If Medicaid coverable
 - If medically necessary
 - Even if the service is not available under the State plan to other Medicaid eligibles

EPSDT - Medical Necessity

- No arbitrary limitations on services allowed
 - e.g., one pair of eyeglasses or 10 PT visits per year
- Additional services above what is covered in State plan must be allowed:
 - when medically necessary
 - still must be Medicaid coverable
- State may determine which treatment it will cover:
 - among equally effective & actually available alternative treatments
 - as long as the determination is specific to the individual child

EPSDT - Medical Necessity

- EPSDT does NOT include:
 - Experimental/Investigational Treatments
 - Services or items not generally accepted as effective
 - Services solely for caregiver or provider convenience
 - Services or items in which an equally effective but less expensive option is available

Request Services or Items

- Use PAR process outlined earlier in this presentation
- You can request services or items where the code list shows it is not a benefit of Colorado Medicaid
- Must include a letter of medical necessity with request
- All requests for services or items will be reviewed by the ColoradoPAR Program for medical necessity

Universal Procedure and Diagnosis Coding

- HIPAA requires providers to use universal Current Procedural Terminology (CPT) coding guidelines
 - Medicaid payment policies are based on CPT descriptions
 - Providers are required to consult CPT manual definitions for each code they submit for reimbursement
- Providers must also use International Classification of Diseases, 9th Revision, Clinical Modification diagnosis codes (ICD-9)

CPT Coding Guidelines

- Some codes represent a treatment session, regardless of length of time, so each code is correctly billed as one session or one (1) billable unit
 - Do not bill non-timed codes with greater than one (1) unit
 - Bill non-timed codes such as 92507, and 92508 (otorhinolaryngology services) with one (1) unit per date of service
- Other codes may be billed as number of “timed” units
 - For example, 92607 and 92608 (evaluation and therapeutic services)
- Note: Do not bill 92607 without 92608 if the time is beyond one (1) hour
