Procedure Codes

- G9006
  - Coordinated Care Fee, Home Monitoring
  - Use this code when billing services for the mother
- T1017
  - Targeted Case Management
  - Use this code when billing services for the child
- Services for the mother and services the child must be billed on separate claims

Places of Service

- Reimbursement rate is dependent on Place of Service
  - Bill Place of Service Code 12 (Home) or any TCM that occurs away from the office/agency
  - Bill other Place of Service codes for TCM that occurs at your office/agency including but not limited to:
    - 11 (Office)
    - 50 (FQHC)
    - 71 (Public Health Agency)
    - 72 (RHC)

Units of Service

- 1 unit equals 15 minutes of TCM
- A maximum of fifteen (15) units will be reimbursed in any calendar month per mother/child couple
- May be divided between the mother and child if both are Medicaid-eligible in the same month
- May be provided:
  - In the home/off-site setting
  - In the office
  - A combination of both

Units of Service

- Time spent on TCM should be rounded to the nearest whole unit
- Documentation in the chart should support the number of units billed

Service Time	Units Billed
5 minutes	No units may be billed
10 minutes	1 unit may be billed
23 minutes	2 units may be billed

Modifiers

- 1st modifier field must always be HD (pregnant/parenting program)
- If Home TCM and Office TCM on the same date of service or span:
  - Line Item 1: Procedure code, Modifier 1 is HD, first place of service code
  - Line Item 2: Procedure code, Modifier 1 is HD, Modifier 2 is 76 (duplicate service), other place of service code

Diagnosis Codes

- Diagnosis codes that are appropriate for this program include but are not limited to the following:

Member Description and Stage	Diagnosis Code	Description
Pregnant Woman	V22 V22.0 V22.1 V23	Normal pregnancy Supervision of normal first pregnancy Supervision of other normal pregnancy Supervision of high-risk pregnancy
Mother from Delivery through 2-3 Months Postpartum	V24.2	Routine postpartum follow-up
Mother after 2-3 Months Postpartum to Child's 2nd B-day	V68.9	Encounter for unspecified administrative purpose
Child-Infancy through 2nd B-day	V20 V20.1	Health supervision of infant or child Other healthy infant or child receiving care

Span Billing

- Alternative billing method allowed for some services, including NHVP
  - Rather than billing each encounter separately with individual dates of service, Span Billing allows you to bill one line item for:
    - The same service provided to the same member
    - Over a period of time on multiple dates of service
  - For instance if TCM was provided to the same member on three different dates of service:
    - Span of dates can be entered in the “From Date” field and the “To Date” field on one line item
    - Rather than billing three line items for each separate date of service

Span Billing

- The span “From Date” and the span “To Date” should be within the same month
  - ie. 10/1/15 – 10/31/15
  - not 10/15/15 – 11/15/15
- No additional claims for that specific service for that member during that span will be paid once the span claim is paid
- If you need to add units, you must adjust the span claim
  - Do not submit an additional claim

Common Denial Reasons

Timely Filing	Claim was submitted more than 120 days without a LBOD
Duplicate Claim	A subsequent claim was submitted after a claim for the same service has already been paid
Bill Medicare or Other Insurance	Medicaid is always the "Payer of Last Resort" - Provider should bill all other appropriate carriers first

Common Denial Reasons

PAR not on file	No approved authorization on file for services that are being submitted
Total Charges invalid	Line item charges do not match the claim total
