

# Attachment 4: Stakeholders and Key Partners in NWD System Planning Efforts

---

Stakeholders and key partners will be engaged in Colorado’s regional community organizational pilot sites by serving on regional advisory groups. The entities that currently conduct entry point functions in a given region will be partners in the community organizational pilot sites and will be represented in the regional advisory group. For other perspectives, such as individuals seeking services, hospital discharge planners, community mental health centers and hospice providers, the NWD Project Manager and Nonprofit Impact will work with the pilot sites to recruit a diverse membership representing the different perspectives. The regional advisory groups will hold ongoing meetings to advise the entry point organizations involved on the development and implementation of the pilot. The regional advisory groups will include representatives from the following organizations depending on regional presence:
