

Mission: To provide the highest quality water at the most affordable price for current customers and to provide for the expansion of the District as growth occurs.

Hello Greatrock water consumers. I am Robert Fleck, President of the Greatrock North Water and Sanitation District Board of Directors. This month I'm filling in for Jeff as he is enjoying his vacation. Below please find a summary of this month's meeting.

-Contracts with our consultants were reviewed, updated and approved for 2015.

-A review and approval of budgeted monthly expenditures which totaled \$44,198.83 for October.

-A public hearing for the 2015 budget was held and approved. This year we will need to increase the base fee for water service to cover increases in operational costs. The increased amount is \$6 per month, from \$40 to \$46, keeping the per 1,000 gallon charges and mill levy the same as 2014.

-Maintenance of our system included progress status of verifying curb stops and repairing as needed.

-Operations included normal checks and preventive maintenance work orders.

-Legal matters included adopting a marijuana policy and considering changes to our insurance coverage.

-Reviewed and agreed to update the rules and regulations related to fees and charges.

-Community comments included questions about fees and understanding how the system works and long term goals to improve water operations and supply. If you want a tour of the system, please notify us and we can make dates available

Come to our meeting: We, the Board, encourage public participation and involvement regarding our water system. Please consider attending one or some of our meetings to glean our challenges and future needs to improve and maintain our system.

Our next Board meeting will be on December 2nd at 5:30 pm at the United Power Building. One thing to note is the door locks at 5:30pm. If you drop by after 5:30pm, to the right of the doors are some windows. We keep the blinds open and keep an eye out for those who are a little late in arrival. Hope to see you all at our next meeting!!

Water Quality: The Board continues to monitor water quality so if you feel your quality is not what it should be, let us know by calling **303-987-0835**.

Respectfully submitted,
Robert Fleck, President
