

### *Acknowledgements*

The Colorado Department of Public Health and Environment (CDPHE) Office of Emergency Preparedness and Response (OEPR) funding for this conference/summit was made possible by the Centers for Disease Control and Prevention (CDC) through the Department of Health and Human Services (HHS), Coordinating Office for Terrorism Preparedness and Emergency Response (CTPER), through the Assistant Secretary for Preparedness and Response (ASPR), Hospital Preparedness Program (HPP) and Public Health Emergency Preparedness (PHEP) Cooperative Agreements, Grant Number: 5U90TP000510. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

### *Special Thanks*

The Office of Emergency Preparedness and Response would like offer our gratitude to all those who made this meeting possible. Including but not limited to:

- Embassy Suites Conference Center, Loveland, CO for a great venue
- Colorado Hospital Association (CHA) for assisting with the facility and logistics
- Chris Mitchell - Onward Innovations - for technical assistance
- And a special thank you to all our excellent presenters and facilitators

### *Presenter/Facilitator Biographies*

**Nick Kell** is the Emergency Preparedness Planner at Boulder County Public Health. Nick brings over 5 years of experience between public health and hospital emergency management, including his previous role as an emergency planner with the University of Virginia (UVA) Medical Center. Prior to starting his career in emergency management, Nick was an EMT in UVA's Emergency Department.

**Kristen Campos** is the Health Alert Network (HAN) Coordinator and Co.Train Administrator for the Office of Emergency Preparedness and Response (OEPR). She is a member of the Systems Integration Team which houses the systems that OEPR uses. She has been a part of this office since 2002, but just recently became a systems coordinator managing the Colorado Notification System and Co.Train. Kristen is a native of Colorado and is a city girl, with a mountain heart.

**Travis Dorr** has been part of Mesa County's Regional Emergency Preparedness and Response Staff since October of 2014. In addition to serving as the point of contact for four Northwest Region counties, he is also the lead for public health exercises in those counties, as well as the six counties of the West Region. Travis's duties also include leading the Mesa County Emergency Support Function

#8/Healthcare Coalition, managing the Colorado Medical Cache-Western Slope, and serving as the SNS Coordinator for the Mesa Regional Transfer Point.

**Aimee Voth Siebert** is the Community Inclusion Coordinator and Disaster Behavioral Health Specialist with the Colorado Office of Emergency Preparedness and Response (OEPR). Aimee has worked for OEPR since May 2012, supporting state responses for the 2012 and 2013 Wildfire Seasons, the Aurora Theater Shooting, the September 2013 floods, domestic Ebola preparedness, and the Planned Parenthood Shooting in November 2015. In September and October 2015, she deployed to support the CDC's Ebola response in Sierra Leone as a Health Promotion Specialist. Aimee completed her Masters in International Disaster Psychology at the University of Denver in 2012.

**Devon Williford** is the Health GIS Specialist for the Colorado Department of Public Health and Environment where he has been assisting the department in developing desktop GIS and web-mapping applications supporting data visualization, disease surveillance, mapping community health resources, environmental public health tracking, and emergency preparedness and response. Mr. Williford has provided GIS support to department staff for the past 11 years. Mr. Williford received a Bachelor of Science degree in Geography and Certificate in Geographic Information Systems (GIS) from the University of Georgia in 1998, and a Master of Public Health degree with a focus in Epidemiology from the Colorado School of Public Health in 2011. Mr. Williford also teaches a graduate level course on GIS-Public Health Integration at the Colorado School of Public Health.

**Melanie Simons, MPH**, Colorado Department of Public Health and Environment (CDPHE), Office of Emergency Preparedness and Response (OEPR), SNS Program Manager. Melanie has been in her role as SNS Program for almost 4 years and formerly served as the CRI Coordinator and NCR Training Coordinator/RPOC. She has worked for CDPHE for 25 years -- 12 years in OEPR and 13 years as the Public Education Coordinator for the Colorado Women's Cancer Control Initiative.

**Darcie N. Bentz** is a Preparedness Field Assignee, with the Office of Public Health Preparedness and Response, at Centers for Disease Control and Prevention (CDC). Ms. Bentz is currently stationed at the Colorado Department of Public Health and Environment (CPDHE), working in the Office of Emergency Preparedness and Response (OEPR). As an integral part of OEPR, Ms. Bentz works on a variety of projects helping to support statewide preparedness and response activities. Along with her commitment to supporting preparedness and response activities in Colorado, Ms. Bentz has also been deployed to the U.S. Virgin Islands to assist with the Zika response, and to Mariposa County, California to assist with the drought response.

Previous to her position as a Preparedness Field Assignee, Ms. Bentz was a part of the CDC Public Health Associate Program (PHAP), stationed in Maricopa County, Arizona. During her time in Maricopa County Ms. Bentz supported the Office of Epidemiology in a multitude of projects, including but not limited to, heat surveillance, syndromic surveillance, Super Bowl XLVIII surveillance, disease investigation, and preparedness and response activities.

**Aubrey Kukral** is a Systems Coordinator for the Office of Emergency Preparedness and Response at the Colorado Department of Public Health and Environment. She is responsible for EMSystem (EMResource, EMTrack, and eICS), CO-SHARE, and is also the State HAVBED Coordinator. Aubrey has been with OEPR for 6 years, and plans on sticking around for as long as OEPR will have her!

**Leah Colton, PhD**, Medical Entomology and Zoonoses Epidemiologist, Communicable Disease Branch, Disease Control and Environmental Epidemiology Division, Colorado Department of Public Health and Environment. I have a PhD in Microbiology from Colorado State University (Fort Collins) and

undergraduate degrees in Zoology and Microbiology. I have experience working with mosquitoes, fleas, and ticks while doing public health research and service at the Centers for Disease Control and Prevention in Fort Collins, CO from 2002 to 2013. I've been working as the Medical Entomology and Zoonoses Epidemiologist at the Colorado Department of Public Health and Environment since June 2013.

**Lynn Garst, M.Ed.** works for the Office of Emergency Preparedness and Response at the Colorado Dept. of Public Health & Environment. He has extensive experience working with traumatized children and youth in school, hospital, and community mental health settings. Mr. Garst has been the Disaster Coordinator for a community mental health center and provides consultation and training on disaster behavioral health and workforce resilience across Colorado. He has authored several briefs on childhood trauma and presented nationally on trauma informed care.

**Lisa Powell** has been working in Public Health for the past 20 years and serves as the El Paso County Public Health Emergency Manager. She was a member of the incident command team for the 2009 H1N1 Pandemic Influenza Outbreak. She was the ESF 8 lead in the Emergency Operation Center for the Waldo Canyon Fire 2012, the Black Forest Fire 2013, and the Colorado Floods 2013. Her most recent experience includes behavioral health coordination for first responders and affected community members following the Planned Parenthood active shooter incident November 2015. She has participated in numerous emergency operations events for both exercises and real world events. She currently serves as the chair of the South Central Healthcare Coalition. She holds her masters in Organizational and Professional Communication. She completed the FEMA Master Exercise Practitioner Program and is a Terrorism Liaison Officer.

**Curt H Drennen, Psy.D., R.N.** is a licensed psychologist with OEPR, and has been leading disaster behavioral health preparedness and response efforts since 2002. In this role he directs the State's capacity development to respond to the psychosocial impact of disaster, community crisis and public health emergencies which includes incorporation of public behavioral health with public health and emergency management, addressing psychosocial impact of fatality management, supporting community inclusion, growing responder health and safety and managing recovery programs like the Colorado Spirit Crisis Counseling Program and the Aurora Strong recovery program. He has in excess of 20 years of experience in the fields of mental health and psychology with an emphasis in Public Psychology and Administration, Emotional Intelligence, Resilience, Servant Leadership, and Systems Conflict Management. Dr. Drennen received his Masters and Doctorate from the University of Denver in Clinical Psychology in 2000 and 2001, his Bachelors of Science in Nursing from the University of Kansas in 1992 and his Bachelors of Science in Psychology, Chemical Science and Pre Medicine from Kansas State University in 1989.

**Greg Stasinis** is currently the Preparedness Branch Manager of the Office of Emergency Preparedness and Response at the Colorado Department of Public Health and Environment. He has been involved in public health emergency management for 15 years and loves to share his success stories.
