

WELCOME and THANK YOU!

2016

HEALTHCARE PREPAREDNESS
SUMMIT

How Did We Get Here?

The Aha's!

Inconsistent pathways to:

- How **local** cross-jurisdictional health and medical response (ESF #8) systems are operationalized
- How ESF #8 systems are activated by EOC's and the interface during a response
- How entities impacted in an incident request resources from a separate jurisdiction
- How situational awareness is maintained with partners across political boundaries

Summit Goals

- #1** Provide an overview of ESF #8 at local, state and federal levels and 2 real world events
- #2** Introduction to the local Cross-Jurisdictional Guidance
- #3** Test the Guidance in an exercise

Met Our Goals?

- Provided a basic understanding of ESF #8 from local to state to federal levels and the Guidance document
- Your active participation in the exercise to test the guidance
- Feedback and Input
