

This is the third of four communications that all local agency WIC staff will receive on upcoming changes to Compass. The three *Road Map to Compass* documents will highlight those changes most often encountered during the WIC visits. Closer to implementation of the new version of Compass, all local agency WIC staff will receive the fourth communication, the Compass Release Letter (a listing of all changes pertinent to local agency operations) and a set of Colorado WIC FY13 Policy Letters.

Featured Changes

New Breastfeeding Questions in the Infant and Child Nutrition Interviews.

Change Description: Additional questions have been added to the infant and child nutrition interviews to gather more complete breastfeeding data for breastfeeding prevalence reports.

New Procedures: Staff will need to complete the new breastfeeding questions for both the infant and child nutrition interviews. *The new questions will be enabled based on staffs' data entry to previous breastfeeding question(s). Not all questions may need to be answered.*

The seven new breastfeeding questions in the infant and child nutrition interviews are listed below. Screen shots of the interviews are provided on pages 2 and 3.

List of the New Questions in the Infant and Child Nutrition Interviews

Question: What besides breast milk has <<name>> received?

Answer: Provided in a drop down list. Options include:

- ✓ Nothing
- ✓ Something else, rarely
- ✓ Something else, regular basis

Question: How old was <<name>> when he/she was first fed something other than breast milk?

Answer: Complete the calendar option or use the *weeks* field.

Question: How old was <<name>> when he/she was fed something else on a regular basis?

Answer: Complete the calendar option or use the *weeks* field.
