

Attachment 13: The new Supply/Demand report, when run for the year preceding a Dislocated Worker’s WIA application date, can be used to document “unlikely to return” when the applicant’s ONET of dislocation falls in the lowest third in terms of lowest demand/highest supply.

The Supply/Demand Report is currently located in Connecting Colorado’s Report Menu at the bottom right corner of the screen.

1. Select *Supply Demand (Test)*

2. In the *During* fields, enter the year preceding a Dislocated Worker’s application date to determine “unlikely to return” eligibility.

- Select the appropriate *Region, State or Super Region (Metro Denver, Front Range)* based on where the Dislocated Worker applicant is searching for employment.

Supply Demand

Report Criteria

Region:
 Adams
 Arapahoe/Douglas
 Boulder
 Broomfield
 Denver
 Eastern
 El Paso/Teller
 Larimer
 Mesa
 Northwest
 Pueblo
 Rural Resort
 Southcentral
 Southeast
 Southwest
 Tri-County
 Upper Arkansas
 Western
 Weld
 Metro Denver (AD AR BR DE TR)
 Front Range (AD AR BO BR DE ET LR PB TR WL)

- Review the report to locate the 2-digit O*Net code associated with the job of dislocation. The Supply/Demand report can be used to document “unlikely to return” when the applicant’s O*Net of dislocation falls in the lowest third in terms of lowest demand/highest supply. Print the report and place it in the applicant case file with a note that this report is documenting unlikely to return.
