Does this clinic have internet access readily available to all staff?	<input type="checkbox"/> YES <input type="checkbox"/> NO	
Is this clinic insured against vaccine wastage and reimbursement?	<input type="checkbox"/> YES <input type="checkbox"/> NO	

VACCINE STORAGE UNITS

Please indicate the total number of units at your office used to store vaccine. List your units under the correct grade, pharmaceutical, commercial or household. Definitions of each grade are included below.

Pharmaceutical: Also called "purpose-built," these units are designed by the manufacturer specifically to store vaccines or other biological materials.
Commercial: Although usually intended to store food and beverages, commercial units are often larger and more powerful than the household units found in most homes. Though these units are intended to meet the higher demands of larger facilities, these units are not specifically built for the storage of biological materials.
Household (non-commercial/domestic): These units are usually smaller than commercial units and are intended for use in small offices and in homes – typically for food storage. However, just like commercial units, they are not designed specifically for the storage of biological materials. Such units are usually available in common home supply stores.
Dormitory style: a small combination refrigerator/freezer unit that has one exterior door and an evaporator plate (cooling coil), which is located inside an icemaker compartment (freezer) within the refrigerator.

Refrigerator Storage Unit Type			Freezer Storage Unit Types		
	Type of Unit	Number of Units		Type of Unit	Number of Units
<input type="checkbox"/>	Pharmaceutical grade refrigerator		<input type="checkbox"/>	Pharmaceutical grade freezer	
<input type="checkbox"/>	Commercial stand alone refrigerator		<input type="checkbox"/>	Commercial stand alone freezer	
<input type="checkbox"/>	Household stand alone refrigerator		<input type="checkbox"/>	Household stand alone freezer	
<input type="checkbox"/>	Dormitory style refrigerator		<input type="checkbox"/>	Internal freezer in dormitory style refrigerator	

Combination Storage Unit Types

	Type of Unit	Number of Units	Notes:
<input type="checkbox"/>	Commercial refrigerator/freezer combination unit		
<input type="checkbox"/>	Household refrigerator/freezer combination unit with dual controls		
<input type="checkbox"/>	Household refrigerator/freezer combination unit with single control
