

Dear Pharmacy Provider,

Pharmacies that submit professional claims are now able to bill for vaccinations once the pharmacist has been enrolled.

Procedure codes 90471-90474, 90670, 90714, 90715, 90732, 90736 and 90750 must be billed on an 837P form. For more information, visit the [Pharmacist Enrollment: Over-the-Counter and Immunizations web page](#).

Pharmacies should contact their clearinghouse or software vendor to be sure the 837P format has been updated to include the procedure codes and rendering provider. The rendering provider should be the **pharmacist**, not the prescriber.

Refer to the [Immunization Benefit Billing Manual](#) for additional billing information. All questions regarding billing for vaccines should be referred to the [Provider Services Call Center](#) at 1-844-235-2387 and **not** the Magellan Rx Management Pharmacy Call Center.

Thank you,

Department of Health Care Policy & Financing
