

# Prenatal and Post-Partum Care

---

## Measure Description

The percentage of deliveries of live births on or between November 6 of the year prior to the measurement year and November 5 of the measurement year. For these women, the measure assesses the following facets of prenatal and postpartum care.

- **Timeliness of Prenatal Care.** The percentage of deliveries that received a prenatal care visit in the first trimester, on the enrollment start date or within 42 days of enrollment with a health plan.
- **Postpartum Care.** The percentage of deliveries that had a postpartum visit on or between 21 and 56 days after delivery.

## Evaluation Period

Calendar Year

## Numerator

*Timeliness of Prenatal Care* A prenatal visit in the first trimester, on the enrollment start date or within 42 days of enrollment, depending on the date of enrollment with the health plan and any gaps in enrollment during the pregnancy. Follow the steps below to identify the numerator for health plan participants.

*Postpartum Care* A postpartum visit for a pelvic exam or postpartum care on or between 21 and 56 days after delivery. Any of the following meet criteria:

- A postpartum visit (Postpartum Visits Value Set).
- Cervical cytology (Cervical Cytology Value Set).
- A bundled service (Postpartum Bundled Services Value Set) where the organization can identify the date when postpartum care was rendered (because bundled service codes are used on the date of delivery, not on the date of the postpartum visit, these codes may be used only if the claim form indicates when postpartum care was rendered).

Our mission is to improve health care access and outcomes for the people we serve while demonstrating sound stewardship of financial resources.
