

Dear Provider,

The Department of Health Care Policy & Financing (the Department) is updating the pricing methodology for unlisted surgery CPT codes. These are codes used when there is no CPT or HCPCS code that accurately identifies the service performed. The American Medical Association (AMA) description of these codes begins with the term "unlisted."

Unlisted surgery codes with dates of service between March 1, 2017, and October 31, 2018, will be priced at 50% of submitted charges, subject to Department review.

Unlisted surgery codes with dates of service on or after November 1, 2018, will be priced by a DXC clinical reviewer.

For claims with unlisted surgery codes and dates of service on or after November 1, 2018, providers must fill out the [Unlisted Surgical Procedure Code Form](#) and include the operating report from the procedure as an attachment to the claim. The form is available on the [Provider Forms web page](#) under the "Claims Forms and Attachments" drop-down section. The Department will deny claims lacking the required attachments. Claims denied for incomplete information should be resubmitted with the correct information for reimbursement.

Contact Christopher Lane at [Christopher.Lane@state.co.us](mailto:Christopher.Lane@state.co.us) with any policy questions.

Thank you,

Department of Health Care Policy & Financing
