Colorado Department  
of Public Health  
and Environment

December 13, 2012

Dear Public Health Partner:

In an ongoing effort to provide affordable high complexity testing to our valued public health partners, the Laboratory Services Division of the Colorado Department of Public Health and Environment reviews each test offering for annual volume and cost effectiveness.

As a result of a recent test review, the Laboratory Services Division will no longer offer serological testing for Hepatitis C virus infection.

Effective February 1, 2013, the following test will be discontinued:

Hepatitis C virus Antibody

Please contact us with any questions and/or concerns.

Thank you,

Laura Gillim-Ross, PhD  
Deputy Director
