**Footnotes and Assumptions**

**Class I Nursing Home Calculations for FY 2014-15 , FY 2015-16 and FY 2016-17 Footnotes:**

- (1) Per HB 08-1114 and SB 09-263, the Department implemented significant changes in the reimbursement rate methodology for nursing facilities. Beginning in FY 2008-09, instead of reimbursement based on an overall per diem rate, facilities are reimbursed based on a per diem rate for core components as well as supplemental per diem rates for eligible facilities. The core components include fair rental value; direct and indirect health care; and administrative and general costs. Supplemental payments are made for providers who have residents with moderate to severe mental health conditions, cognitive dementia, or acquired brain injury; and to providers who meet performance standards. In addition, supplemental payments are made for growth above the General Fund growth cap and as a provider fee offset. The following table includes the historical per diem reimbursement rates and the estimated and projected per diem rates for FY 2002-03 through FY 2016-17. The Core Per Diem less patient payment represents the General Fund portion of nursing facility reimbursement. It is to this figure that the General Fund Growth cap outlined in statute is applied.

- (2) The patient days estimate is a trended value using incurred but not reported (IBNR) adjusted data. Values for prior years differ slightly from prior Budget Requests due to the inclusion of claims paid between those Requests and this Request. Hospital Back Up days are removed from this calculation. Because FY 2015-16 is a leap year, estimated patient days for FY 2015-16 are inflated to account for an additional calendar day; this adds approximately 9,300 days to the projection.

- (3) Estimated costs for current year dates of service is the amount the Department expects to pay for services rendered in the current fiscal year regardless of which fiscal year the payment is made.
- (4) Of the estimated costs for the current year dates of service, a portion of those claims will be paid during the same fiscal year in which they were incurred while the rest of the claims will be paid in a future period. In order to estimate how much of the total expenditure incurred in the current year will be paid in the current year, expenditure patterns must be analyzed by month. This is because, for example, a claim incurred in July 2008 has 11 more months to pay during FY 2008-09 (from August 2008 to June 2009), while a claim incurred in May 2009 only has one additional month to pay during FY 2008-09 (June 2009). Thus, more claims from May 2009 will pay in FY 2009-10 than claims from July 2008. Based on the Department's estimate of incurred but not reported (IBNR) claims, the Department estimates in the table below the portion of claims outstanding for any given fiscal year by analyzing estimated IBNR (based on 4 years of data) and averages the total to provide an estimate of the total percentage of claims that will pay in the same fiscal year that the claim was incurred.

**Estimate of Claims Incurred and Paid in the Same Fiscal Year**

<b>Month Incurred</b>	<b>Additional Months Until End of Fiscal Year</b>	<b>Estimated Percent Complete at End of Fiscal Year (IBNR Factor)</b>
July	11	99.89%
August	10	99.86%
September	9	99.78%
October	8	99.67%
November	7	99.49%
December	6	99.23%
January	5	98.77%
February	4	98.11%
March	3	96.79%
April	2	94.27%
May	1	89.89%
June	-	35.91%
Average		92.64%

The IBNR factor does not apply to Supplemental Payments since these payments are calculated and paid once per year with no retroactive adjustments.

- (5) As calculated in the table below, the estimated FY 2014-15 expenditure for core components with FY 2013-14 dates of service is the estimated FY 2013-14 core components per diem rate, less the estimated per diem patient payment rate, multiplied by the estimated number of patient days. This calculation is then multiplied by one minus the calculated IBNR rate.

- (6) Hospital Back Up and out of state placements are programs where the Department pays a much higher per diem for specialized clients which can be several times the statewide average Nursing Facilities Medicaid reimbursement rate. This is an intermediate level of care in between the hospital and a skilled nursing facility. Types of clients treated under this program include ventilator, wound care, medically complex and traumatic brain injury with severe behaviors. This group is difficult to budget for due to the fluctuation in client base. FY 2007-08 expenditure was lower than previous years due to a facility which was placed under a "Denial of Payment for New Admissions" status for failure to comply with certain standards, although this has since been rectified. In FY 2008-09, expenditure rose sharply due to an increase in billed patient days. In FY 2009-10 no facilities were accepting new clients. In FY 2010-11 one new client was added to the program. In FY 2013-14, there was a spike in enrollment. The Department has monitored enrollment through December 2014 and it appears there was a level shift in enrollment in FY 2013-14 with enrollment figures staying consistent into FY 2014-15. Currently, the Department is working to evaluate the efficacy and design of the HBU program. As the Department continues through this process, client admission into the program will be evaluated on a case by case basis.

Effective with the February 2009 Budget Request, this table has been revised to show totals per paid fiscal year. Previous Requests have used incurred totals. This change is incorporated in both the projection of total expenditure and the projection of the General Fund cap.

- (7) Overpayment review recoveries are amounts that the Department recovers from nursing homes. The Department contracted with a contingency based contractor to do a five year historical audit of all the facilities, and the contract expired at the end of FY 2005-06. The Department continues to do internal audits of nursing facilities, and estimates that, on average, each audit recovers approximately \$19,458.

- (8) HB 10-1324 imposed a rate reduction of 1.5% effective March 1, 2010 and effective until June 30, 2011. HB 10-1379 imposed a rate reduction of 1% in addition to the rate reduction of HB 10-1324 for the period of July 1, 2010 to June 30, 2011. SB 11-215 imposed a rate reduction of 1.5% effective July 1, 2011 for FY 2011-12 that was extended for FY 2012-13 by HB 12-1340. HB 13-1152 extended the 1.5% rate reduction indefinitely, effective July 1, 2013. The rate reductions apply to all days incurred under the effective periods of each bill. As not all days will be reported in the fiscal year in which they are incurred, the impact of the rate cuts extends over multiple fiscal years. The tables below show the incremental impact of the two bills. These figures may vary from previous submissions of the Department's requests due to revised forecasts for rates and patient days.

- (9) SB 14-130 raises the basic minimum amount payable for personal needs to any recipient admitted to a nursing facility or intermediate care facility for individuals with intellectual disabilities from \$50.00 to \$75.00, monthly.
- (10) A July 2014 audit review on the nursing facility supplemental payments from July 1, 2009 to June 30, 2012, resulted in the finding that the state incorrectly calculated prospective payment amounts, resulting in overpayments to facilities. The federal share of the overpayments totaled \$2,470,450, which must be reimbursed to the federal government and is a General Fund only payment.

Footnotes  
 (1) The percentages selected to trend expenditure for FY 2014-15, FY 2015-16, and FY 2016-17 are 22.47%, 11.80%, and 5.90% respectively. These trends are equal to the percentage change in per diem rates as determined by audited costs by the Department's rate contractor with reduced growth over time. Despite the drop in expenditure in the most recent year, the per diem rate for FY 2014-15 is known at this time and has increased over the previous per diem rate. FY 2015-16 and FY 2016-17 have been calculated with positive growth that decreases over time.

**Footnotes**

- (1) The Average Monthly Paid Enrollment is not the actual enrollment in the Department's PACE program. This figure reflects the number of capitations paid in each month, not the distinct number of clients enrolled. For further information, please see the Budget Line Item Description.
- (2) The FY 2010-11 Per Enrollee costs are adjusted for the PACE reconciliation with providers from FY 2009-10. These figures subtract out the reconciliation to keep trends consistent historically.
- (3) Per-enrollee costs for FY 2014-15 are a weighted average of FY 2014-15 rates by forecasted FY 2014-15 provider distribution and FY 2013-14 third-party-liability status. FY 2015-16 per-enrollee costs are estimated using the average growth in per-enrollee cost between FY 2007-08 and FY 2012-13 applied to FY 2014-15 estimates. FY 2016-17 per-enrollee costs are estimated by application of the same growth rate to estimated FY 2015-16 per-enrollee costs.
- (4) Monthly Paid Enrollment figures for FY 2014-15, FY 2015-16, and FY 2016-17 are estimated via linear regression of historical enrollment by provider and eligibility type.

**Footnotes**  
 (1)The Part B premium remained at \$104.90 effective January 1, 2015. The January 1, 2016 and January 1, 2017 rates have not yet been issued by CMS. The projected growth in premiums from the Kaiser Family Foundation issue brief, published January 13, 2014, is assumed for CY 2016 and CY 2017.  
 (2)Total Expenditure is calculated as the estimated first half expenditure plus the estimated second half expenditure. See the Budget Narrative for further information.
