# TITLE II – Entitlement Tab

For triple entitlement cases, dual entitlement status code is based on the primary (A) and auxiliary (B) claims. It is assumed that the survivor (D) benefit is in the payment status as the primary payment status.

Blank = Default value

0 = Neither benefit in current payment status

1 = Smaller benefit only in current payment status

2 = Larger benefit only in current payment status

3 = Both benefits eligible for current payment status (checks may be combined or separate)

4 = Primary is working on record on which auxiliary entitlement exists

5 = Larger benefit is subject to full government pension/worker's compensation offset

S = Dual entitlement suspended, technical entitlement exists

T = Dual entitlement terminated

See Status Codes on page 2

If the Cross Reference Code = C, the first position of the Cross Reference Entitlement Number is an alpha code as follows:

A = Beneficiary's own Civil Service Number

F = Beneficiary's survivor's Civil Service Number

S = Beneficiary's spouse's Civil Service Number.

The last seven digits represent the Civil Service Number.

For all other Cross Reference Codes, the Cross Reference Entitlement Number is a social security number.

The last 8 *occurrences* of payment history data may be displayed to provide historical payment information. It is essential to understand the meaning of *occurrence*. Each occurrence of data indicates a change in entitlement amount or reflects that benefits were not due. *Therefore, the 8 historical entries show the last 8 changes in benefit amount, not the last 8 months.* For example, an individual whose payment just changes once a year because of the cost-of-living adjustment would have only one occurrence of entitlement history per year. In situations where the individual has been in current payment status, or in full suspense, AND there has been no retroactive change in his/her benefit amount, the history is also a payment history. However, in many cases where there have been adjustments to the record, this history does not accurately reflect the actual payments made. It does reflect what the individual was entitled to receive for those months.

C = Benefits paid (credited)  
N = Benefits not paid (not credited)  
E = Benefits not paid (not credited), due to delayed/pending or suspense  
Blank = Benefits not paid (not credited)
