BENEFITS

Compensation benefits are paid by insurance carriers for compensable injuries. Temporary disability benefits are paid every 2 weeks.

Temporary Total Disability - Total disability of more than 3 working days. If disability lasts for more than 14 calendar days, compensation shall be paid from the day left work. Compensation is payable at the rate of 66 2/3% average weekly wage in effect at the time the injury/exposure not to exceed the statutory maximum. A loss of fringe benefits specifically enumerated in the statute should be included in the calculation of the average weekly wage.

Permanent Partial Disability - Payable where there is residual impairment, based upon the part of the body affected, or on the extent of medical impairment.

Facial or Bodily Disfigurement – Payable for serious, permanent disfigurement about the head, face, or parts of the body normally exposed to public view. The maximum benefit is established each year for injuries that occur during that year. In addition, for injuries that occurred on or after July 1, 2007, it is possible to receive a larger amount for extensive disfigurement. Information regarding the maximum benefit for your date of injury is located on the Division's website, or you may contact the Customer Service Unit at (303) 318-8700.

Medical Benefits - Current medical benefits for medical, hospital and surgical supplies, prescriptions, crutches, apparatus and vocational rehabilitation.

Temporary Partial Disability - Temporary partial disability of more than 3 working days. Compensation is payable at the rate of 66 2/3% of the difference between the employee's average weekly wage at the time of injury and said employee's average weekly wage during the continuance of the temporary partial disability not to exceed a maximum of 91% of the state average weekly wage per week.

MMI - Maximum Medical Improvement means a point in time where any medically determinable physical or mental impairment as a result of injury has become stable and when no further treatment is reasonably expected to improve the condition.
