

**FINDING OF NO SIGNIFICANT IMPACT**

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed action below:

Project: Town of Cedaredge

Location: Delta County

Project No.: 030043W

Total Cost: \$4,794,468

**Project Description**

The proposed project consists of decommissioning the existing lagoon WWTF and constructing a new SBR facility with aerobic digestion, influent screening, grit removal and disinfection. The project will be funded, in part, by Water Pollution Control Revolving Fund loans in the amount of \$468,707 at an interest rate of 0%, and a principal forgiveness loan in the amount of \$457,761. Debt service on the loan is anticipated to increase monthly user rates by approximately \$1.61.

The review process did not indicate that significant environmental impacts would result from the proposed action. Consequently, a preliminary decision not to prepare an Environmental Impact Statement (EIS) has been made. The action is taken on the basis of a careful review of the engineering report, environmental assessment, and other supporting data that are on file in the Water Quality Control Division of the Colorado Department of Public Health and Environment, and are available for public review upon request.

Comments supporting or disagreeing with this decision may be submitted for consideration to:

Erick Worker, Project Manager  
Colorado Department of Public Health and Environment  
WQCD-GLU-B2  
4300 Cherry Creek Drive South  
Denver, CO 80246-1530

After evaluation of the comments received, the Division will make a final decision; however, no administrative decision will be taken on the project for at least 30 calendar days after publication of the Finding of No Significant Impact.

Dated this 13<sup>th</sup> day of April, 2015.

Patrick J. Pfaltzgraff  
Director, Water Quality Control Division
