Department of Public
Health & Environment

Dedicated to protecting and improving the health and environment of the people of Colorado

FINDING OF NO SIGNIFICANT IMPACT

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed action below:

Project: Genesee Water and Sanitation District

Location: Jefferson County

Project No.: 140109D

Total Cost: \$10,300,000

Project Description

The proposed project consists of acquiring, constructing, equipping and furnishing a new drinking water treatment facility and other water system improvements including improvements required to maintain reliable water delivery and metering and all other costs and expenses incident thereto. The project will be funded in part by a Drinking Water Revolving Fund loan in the amount of \$9,790,312 at an interest rate of 2.17%. The loan will increase the property tax rates by approximately \$40.04 per month.

The review process did not indicate that significant environmental impacts would result from the proposed action. Consequently, a preliminary decision not to prepare an Environmental Impact Statement (EIS) has been made. The action is taken on the basis of a careful review of the engineering report, environmental assessment, and other supporting data that are on file in the Water Quality Control Division of the Colorado Department of Public Health and Environment, and are available for public review upon request.

Comments supporting or disagreeing with this decision may be submitted for consideration to:

Margaret Pauls, Project Manager
Colorado Department of Public Health and Environment
WQCD-GLU-B2
4300 Cherry Creek Drive South
Denver, CO 80246-1530

After evaluation of the comments received, the Division will make a final decision; however, no administrative decision will be taken on the project for at least 30 calendar days after publication of the Finding of No Significant Impact.

Dated this 9th day of September, 2015.

Patrick J. Pfaltzgraff
Director, Water Quality Control Division
