## FINDING OF NO SIGNIFICANT IMPACT

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed action below:

Project:            **Town of Olathe, Neal Subdivision**

Location:         **Montrose County, Colorado**

Project No.:      **030201W**

Total Cost:      **\$500,000**

### Project Description

The proposed project consists of constructing a new 8-inch gravity sewer line and lift station to connect the Neal Subdivision with the Town of Olathe. The mitigation measures listed in the Environmental Assessment and United States Army Corp of Engineers Nation Wide Permit 12 Utilities Line Activities general conditions will be abided by during the construction of the project. The project will be funded by a Water Pollution Control State Revolving Fund loan in the amount of \$500,000. The loan is in the form of principal forgiveness and therefore the user rates will not be increased.

The review process did not indicate that significant environmental impacts would result from the proposed action. Consequently, a preliminary decision not to prepare an Environmental Impact Statement (EIS) has been made. The action is taken on the basis of a careful review of the engineering report, environmental assessment, and other supporting data that are on file in the Water Quality Control Division of the Colorado Department of Public Health and Environment, and are available for public review upon request.

Comments supporting or disagreeing with this decision may be submitted for consideration to:

Erick Worker, Project Manager  
Colorado Department of Public Health and Environment  
WQCD-GLU-B2  
4300 Cherry Creek Drive South  
Denver, CO 80246-1530

After evaluation of the comments received, the Division will make a final decision; however, no administrative decision will be taken on the project for at least 30 calendar days after release of the Finding of No Significant Impact.

Dated this 21<sup>st</sup> day of May 2013
