CATEGORICAL EXCLUSION DETERMINATION FOR THE PROPOSED WASTEWATER PROJECT FOR TOWN OF BAYFIELD

The Water Quality Control Division of the Colorado Department of Public Health and Environment has conducted a review of the proposed wastewater project for the Town of Bayfield in accordance with EPA and the State of Colorado procedures for implementing the National Environmental Policy Act (NEPA) (40 CFR Part 6) and the State of Colorado NEPA-like policy (SRF Operating Agreement). The State has determined that this project is eligible for a categorical exclusion. Accordingly, the State is exempting the project from further substantive environmental review requirements under the above stated policies.

Project Description:

The proposed project consists of:

- Rehabilitating 8" pipeline with Cured in Place (CIP) pipe;
- Rehabilitating manholes with CIP liners;
- Replacing 8" pipe with 12" pipe;
- Replacing manholes;
- Repairing service connections;
- Repairing point defects in pipes.

The project will be funded, in part, by a Water Pollution Control Revolving Fund loan in the amount of \$600,000 at 2% interest. The project will require a user rate increase of \$2.10 per month.

The project by design will not increase the wastewater demand for the planning area.

Criteria for Granting a Categorical Exclusion under 40 CFR parts 6.107 and 6.505

The action proposed will ensure compliance with current and future wastewater treatment standards. The following criteria condition the allowance of the categorical exclusion for the proposed action:

- Minor rehabilitation of existing facilities;
- Functional replacement of equipment;
- Infiltration and inflow corrections;
- Minor upgrades and expansions of existing treatment works in sewered communities (sewer extensions are not included.)

The documentation to support this decision will be on file at the Colorado Department of Public Health and Environment, Water Quality Control Division, in Denver, Colorado and is available for public scrutiny upon request. Comments concerning this decision may be addressed to:
