City of Central, Colorado

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Central, Colorado, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City of Central Business Improvement District, which is presented as a discrete component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the City of Central, Colorado, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Central, Colorado, as of December 31, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund schedules and the Local Highway Finance Report listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules and the Local Highway Finance Report are fairly stated in all material respects in relation to the financial statements as a whole.

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

As management of the City of Central, ("City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year that ended December 31, 2013.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements as well as providing the reader with greater detail and explanation of areas and/or issues that the City's Management feels are significant. The following discussion and analysis is divided into two basic parts. The first section provides an overview and discussion of the basic components of the financial statements as well as explains the types of analysis that take place within each component. The second section of this report follows the frame-work laid out in the first section and provides figurative analysis of the financial statements themselves. For better understanding, Management suggests reviewing the financial statements in conjunction with this report.

All financial statements include three basic components which are as follows: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. Each of these components provides readers with differing levels of detail and discusses the City's activities and financial position in different scopes. Each of the three components will be discussed below.

1) Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. For that reason, the government-wide financial statements are calculated using the Accrual basis of accounting like the private-sector. Government-wide statements incorporate all aspects of the City's financial condition and allow the reader a general knowledge of financial activities.

The *Statement of Net Position* presents information on all City assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. The information presented in this report focuses on the TOTAL changes for various assets and liabilities.

The second type of analysis used to give the reader a broad overview of City financials is the *Statement of Activities*. This report incorporates information from the Statement of Net Position and presents information showing how the government's net position has changed during the most recent fiscal year. While the Statement of Net Position focuses on total changes in Assets and Liabilities, the Statement of Activities focuses on the underlying causes of those total changes.

Both of the government-wide financial statements mentioned above distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

activities). The governmental activities of the City include general government, public safety (police and fire), streets, historic preservation and parks. The business-type activities of the City include water distribution and system maintenance.

The government-wide financial statements can be found on pages C1 and C2 of this report.

2) Fund financial statements: Fund Financial Statements are the second component (of three) in the City's Financial Statements and detail the status and changes within certain Fund groups. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements are prepared using the *modified accrual basis* of accounting. Because this basis is different than that used for government-wide reporting, reconciliations are presented to detail the differences. All City funds can be divided into three separate categories: governmental, proprietary funds and fiduciary.

Governmental Funds: Governmental funds are used to monitor and account for essentially the same functions that are called "governmental activities" in the government-wide financial statements. However, governmental fund financial statements focus their attention on *current financial resources* that are available to finance the programs and activities of the current period. These financial statements also illustrate balances of spendable resources available at the end of the fiscal year. This type of information can be used to help evaluate a government's capacity to finance near-term operations and programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. In doing so, readers are able to better understand the long-term impact of a government's near-term financing decisions. Reports presented at this scope include the *Balance Sheet* and the *Statement of Revenues, Expenditures and Changes in Fund Balance*. These analyses provide reconciliation between governmental funds and governmental activities so that the reader may make comparisons between the two.

The City of Central maintains seven (7) individual governmental funds. Information regarding these funds is presented in the Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balance. Four (4) of these funds (General, Historic Preservation, Debt Service and Impact Fees) are considered to be "major funds" and are therefore separately identified. The remaining four (4) funds are presented in aggregate and individual information for these funds is provided in another section of the financial statements.

The City adopts an annual appropriated budget for all governmental funds in order to monitor and maintain accepted levels of change. A budgetary comparison statement is also provided for all governmental funds to demonstrate compliance with both municipal and state budget statutes. The governmental funds financial statements can be found on pages C3 through C6 of this report.

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

Proprietary Funds: The City currently maintains one proprietary fund commonly known as an “enterprise fund”. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The main distinction between governmental funds and enterprise funds is that enterprise funds are used to account for activities that are supported by fees charged for goods and services. In the City’s case, the enterprise fund is used to account for and maintain the water system operations and all related financial activity.

Proprietary funds are accounted for using the Accrual basis; the same bases used in government-wide statements and therefore provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages C8 through C10 of this report.

Fiduciary Fund: Fiduciary funds are used to maintain and account for resources that are held outside of the government but for the benefit of governmental parties. The City currently has one fiduciary fund; the Fireman’s Pension Trust Fund. These funds are not reflected in government-wide financial statements because they are not available for the use of the City’s programs. Accounting for fiduciary funds is similar to that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages C11 through C12 of this report.

3) Notes to the Financial Statements: The third and final component of the Financial Statements is the Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. They also describe items and/or events that have impacted the financial statements. The Notes to the Financial Statements can be found on pages D1 through D38 of this report.

Government-Wide Financial Analysis

As mentioned previously, the government-wide financial statements are designed to provide readers with a broad overview and long-term analysis of the City’s finances, in a manner similar to a private-sector business. The largest portion of the City’s assets is reflected in the investment in capital assets (i.e. land, buildings, improvements, and equipment). Capital assets account for 97% of total assets; an increase of 1% over 2012’s percentage of overall assets. While capital assets make up the most significant portion of the City’s Net Position, it is the cash investments, receivables and prepaids with which the City operates. The capital assets increase in concentration of total assets is the result of decreases in unrestricted cash and investments. This decrease of 28% in unrestricted cash and investments is related primarily to the expenses for the Lawrence Street Water Line Project. . Overall, the City’s Total Net Position decreased by 3%, or \$1,548,448.

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

The City utilizes both types of assets described above to provide services to citizens and visitors and to fund daily City operations. The following table shows the City's *Net Position* for 2013 and 2012.

	City of Central's Net Position					
	Governmental		Business-type		Total	
	Activities		Activities			
	2013	2012	2013	2012	2013	2012
Current and other assets	2,705,410	1,821,808	(1,272,529)	9,282	1,432,881	1,831,090
Capital assets	35,396,394	37,656,905	10,711,942	10,702,075	46,108,336	48,358,980
Total Assets	38,101,804	39,478,713	9,439,413	10,711,357	47,541,217	50,190,070
Other liabilities	474,676	511,876	198,604	1,543,118	673,280	666,194
Due to (from) other fund	-	(1,232,994)	-	1,232,994	-	-
Long-term liabilities outstanding	607,970	1,692,946	-	-	607,970	1,692,946
Total Liabilities	1,082,646	971,828	198,604	2,776,112	1,281,250	2,359,140
Deferred Inflow of Resources	311,183	-	-	-	311,183	-
Net assets:						
Net Investment in capital assets	34,788,424	35,963,959	10,711,942	10,702,075	45,500,366	46,666,034
Restricted for Emergencies	155,656	204,726	-	-	155,656	204,726
Restricted	45,937	689,793	-	-	45,937	689,793
Unrestricted	1,723,918	1,314,709	(1,471,133)	(1,378,030)	252,785	(63,321)
Total Net Position	36,713,935	38,173,187	9,240,809	9,324,045	45,954,744	47,497,232

As illustrated above, the City had a decrease in current assets in 2013; current assets decreased by \$398,209 or 21%. This decrease is largely the result of the abovementioned use of current assets for the Lawrence Street Water Line project. This use of assets is reflected as a transfer between the Historic Preservation Fund and the Water Fund

The Water Fund's total assets decreased by \$1,271,944 or 11% due to cash and investments being completely depleted during the year and as well as a change in the way that interfund balances are classified on the Statement of Net Position. In previous years this interfund balance of \$1,281,188 was shown as a liability. The reclassification has caused the significant decrease. Capital assets for the Water Fund increased by \$9,867, or 2%. This decrease is due primarily to annual depreciation for both governmental and business-type activities.

Overall, government wide total capital assets decreased slightly by \$2,250,644 4%. It is important to recognize that the City's capital assets are reported *net* of related debt. Therefore, the resources needed to repay that debt are derived from the current assets and revenues on hand. This means that while capital assets are important, they cannot be used when the payments for those assets are due. Total liabilities decreased by \$1,077,890 (45%) during the year. This significant decrease is related to the retirement of the City's bonded debt obligations as well as the aforementioned reclassification of the interfund balance between the General and Water Funds.

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

The chart on the following page identifies the City's *Changes in Net Position* based upon revenues and expenses:

	Governmental Activities		Business-Type Activities		Total	
	2013	2012	2013	2012	2013	2012
REVENUES						
Program revenues:						
Charges for services	200,405	206,188	574,903	443,383	775,308	649,571
Operating Grants & Contributions	544,497	525,209	-	-	544,497	525,209
Capital Grants & Contributions	-	-	85,640	-	85,640	-
General revenues:						
Property taxes	333,683	308,621	-	-	333,683	308,621
Sales and use taxes	719,357	759,591	-	-	719,357	759,591

Other revenue	537,258	223,082	22,459	168	559,717	223,250
Transfers	(320,177)	-	320,177	-	-	-
Total Revenues	5,781,206	5,981,679	1,008,179	443,551	6,784,385	6,425,230
EXPENSES						
General Government	1,783,361	1,702,357	-	-	1,783,361	1,702,357
Public Safety	1,175,359	942,503	-	-	1,175,359	942,503
Public Works	4,212,674	4,149,098	-	-	4,212,674	4,149,098
Cultural and Recreational	-	-	-	-	-	-
Interest on Long-term Debt	75,024	49,955	-	-	75,024	49,955
Water	-	-	1,086,415	948,232	1,086,415	948,232
Total Expenses	7,246,418	6,843,913	1,086,415	948,232	8,332,833	7,792,145
Change in Net Position	(1,465,212)	(862,234)	(83,236)	(504,681)	(1,548,448)	(1,366,915)
Net Position - Beginning	38,173,187	39,054,873	9,324,045	9,828,726	47,497,232	48,883,599
Prior Period Adjustment	-	(19,452)	-	-	-	(19,452)
Net Position - Ending	36,707,975	38,173,187	9,240,809	9,324,045	45,948,784	47,497,232

Key elements of the changes shown above are as follows:

- Charges for services increased by 19%; primarily as a result of a increased water billings based on meter installations in 2012.
- Sales and Use taxes decreased by 4% from 2011 collections. This decrease is primarily the result of the closure of two of the City's casinos during the year.

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

- State gaming tax collected was 1% above 2012's distribution.
- Device Fees decreased 6% or \$206,245 due to the aforementioned casino closures as well as device losses in other casinos.
- Total governmental activities expenses increased by \$402,505 (5%) due mainly to increases in Public Safety (\$232,856) for equipment and capital lease purchases, Public Works (\$63,576) for the purchase of equipment and General Government expenditures related to marketing and events carried out by the Business Improvement District (\$81,004).
- Expenses within the Water Fund increased by 14% mainly due to legal and professional service fees increasing to handle a number of water court cases.
- Only 46% of the Water Fund's expenses were covered by user charges. In 2012 47% of expenses were covered by user charges. This decrease in coverage is related to the increased expenses mentioned above.

Governmental Funds Financial Analysis

As mentioned on page 2 of this analysis, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. This section of the report discusses the City's governmental and proprietary funds by type as well as individually when the funds are considered major funds or where additional information may be useful to the reader.

Governmental Funds: The focus of the City's governmental funds is to provide information on *current* financial resources and the operations and/or programs that they fund. Such information is useful in assessing the City's financing requirements as well as its ability to continue programs and operations in the near future. In particular, fund balances may serve as useful measures of a government's net resources available for spending at the end of the fiscal year.

Governmental Fund Balances

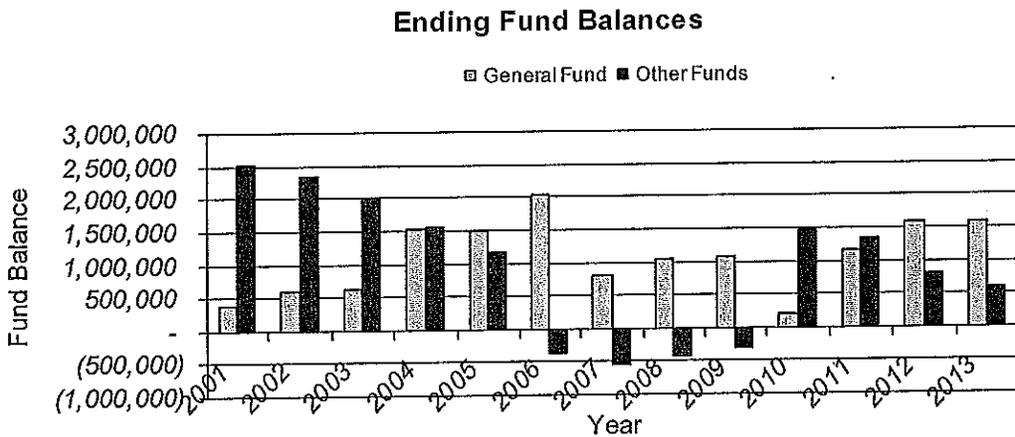

At the close of the year, the City's governmental funds reported combined ending fund balances of \$2,173,563; a decrease of \$235,863 (9%) from the prior year's ending fund balances. The majority of this decrease is related to the Historic Preservation Fund's transfer to the Water Fund in support of the Lawrence Street Water Line Project in the amount of \$320,177. The Historic Preservation Fund's ending fund balance decreased by \$227,744 or 48%. The General Fund ending balance decreased by only \$8,607 or .005%. Excess of revenues over expenditures was \$226,129. The Debt Service Fund's balance decreased to \$0 as the City paid off all bonded debt during the 4th quarter of the year. Other governmental fund balances increased by \$152,052 due to the reclassification of the Public Property Trust Fund as a non-major governmental fund in 2013.

Below is a chart detailing the City's fund balances for the past six (6) years and current:

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

Fund	2007	2008	2009	2010	2011	2012	2013
General	816,077	1,042,854	1,083,488	204,049	1,153,136	1,594,416	1,585,809
Historic Preservation	96,953	451,949	580,053	399,885	999,475	467,139	239,395
Tabor	203,128	203,856	204,054	204,130	204,248	204,726	204,932
Conservation Trust	26,227	28,455	25,063	33,005	38,811	38,688	45,937
Capital Projects	66,346	66,592	66,657	66,682	-	-	-
Debt Service	(1,229,717)	(1,229,713)	(1,229,715)	-	29,135	21,979	-
Highway Lighting	3,026	3,342	-	-	-	-	-
Public Property Trust	200,598	201,317	201,512	925,191	225,928	226,559	227,075
Impact Fees Fund	47,140	(165,474)	(156,776)	(156,745)	(144,081)	(144,081)	(129,585)
Total	229,778	603,178	774,336	1,676,197	2,506,652	2,409,426	2,173,563

The chart below shows that governmental fund balances over the past thirteen (13) years.

Proprietary Funds: The City's proprietary fund analysis provides the same type of information found in the government-wide financial statements but in more detail. At the end of the current fiscal year, the City's Water Fund had expended \$1,086,415 for operating expenses. This is an increase of \$138,183, or 14% over 2012 total expenses for the Water Fund. As stated earlier in this report, this increase is the result of increased legal and consulting costs related to court cases and litigation.

Charges for services within the Water Fund increased by 29% from \$443,383 in 2012 to \$574,903 in 2013. This increase is the result of having all water users metered and being charged for actual water consumption. While the charges for services did increase year over year, so too did the gap between users fees and expenses within the fund. In 2012 user fees covered 46% charges for services, the gap between revenues and expenses within the Water Fund, grew from 47% in 2012 to 47% in 2013. This equates to an operating loss of \$489,053 and a resulting decreased change in net position for the Water Fund of \$83,236 when receipt of tap fees in the amount of \$85,640 is considered. As an Enterprise Fund, the Water Fund should

be supported completely by charges for services in accordance with TABOR requirements. In past years the General Fund has loaned the Water Fund money to help correct the deficiencies between revenues and expenses. As in previous years, the General Fund covered the Water

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

Fund's cash and investments shortfall for operating expenses of \$48,194. This brings the total outstanding balance between the General fund and Water Fund to \$1,281,188. A significant portion of the operating loss for the Water Fund is related to depreciation in the amount of \$348,300.

Until the City can collect charges for services that fully cover the costs of production, operation and maintenance of the water system, the Water Fund's net position can be expected to continue to decrease. This also means that the City's governmental funds will have to continue to subsidize the Water Fund at a fairly high rate.

General Fund Revenues

At the close of the year, the City had received \$4,606,478 in General Fund revenues. This is a decrease of \$230,530 or 4% less than in 2012. Taxes collected were \$24,414 less than prior year. AS has been mentioned previously in this report, device fees (listed as special assessments in the fund financials) decreased by \$179,346 from 2012 collections due to the closure of two casinos and a reduction in overall devices. Charges for services increased by 93% due to increased court costs and surcharges related to municipal court, the collection of lease revenue for billboards and fees related to elevator inspections. Other miscellaneous revenue decreased by \$32,147 due to the City not having as many pieces of equipment and/or vehicles sold at auction in 2013.

When taken with device fee revenues, gaming directly funded 72% of all General Fund revenues. In 2012, gaming directly funded 73% of all General Fund revenues. The fact that this concentration decreased slightly is positive as the City would like to reduce its overall dependence on single streams of revenue. However, the concentration of gaming revenue to other sources is still extremely high and diversification of revenue is needed. Having so much of the General Fund's revenues related directly to gaming makes the City highly susceptible to changes within the often volatile gaming industry. Further, it is important to consider that a large portion of sales, use, lodging and property taxes are also derived either directly or indirectly from the gaming industry.

Device Fees: Because device fees are the City's most significant source of revenue, it is important to closely monitor them and understand how they change and affect the overall General Fund revenues. Through 2013, device Fees are allocated between the General Fund (87%) and the Debt Service Fund (13%) in accordance with the City Municipal Code and bond documents. Fees allocated to the General Fund are used to fund a variety of governmental activities. Device fees collected within the General Fund were \$2,487,543 and accounted for 54% of all General Fund revenues. This is down 1% from 55% in 2012.

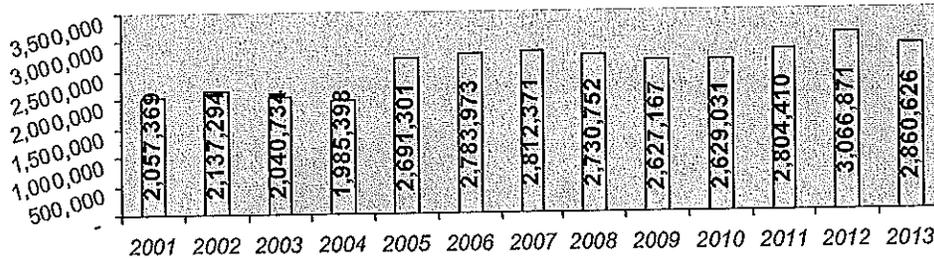

Across all governmental funds, device fees made up 43% of total revenues received. In 2012 device fees accounted for 51% of overall governmental revenues. This decrease in concentration of revenues across funds is due primarily to the receipt of significant miscellaneous funds within the Historic Preservation Fund from the Black Hawk/Central City

Sanitation District for the Lawrence Street Water Line Project. The receipt of these funds increased overall revenues for governmental funds and decreased the percentage that device fees

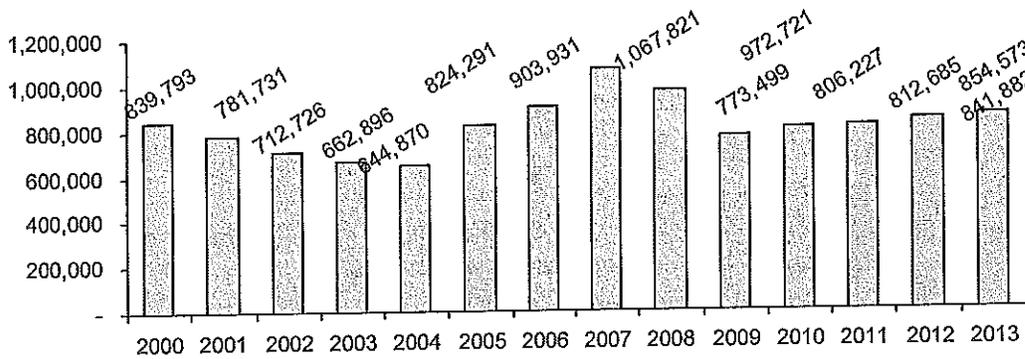

**City of Central, Colorado
Management Discussion & Analysis
December 31, 2013**

made up. The graph below illustrates the total amount of device fee revenue collected for ALL governmental funds over the last thirteen (13) years.

Annual Device Fee Revenues

Gaming Revenue: In direct relation to the number of devices that City businesses have and each individual business's success, is the City's second most important revenue source: state gaming taxes. The amount of state gaming tax received annually by each gaming community is based on a calculation involving each City's proportion of gaming taxes paid to the state. Central City received \$854,573 in 2013; \$12,691 more than was received in 2012. Below is a graph illustrating state gaming tax revenue for the past thirteen (13) years.

General Fund Expenditures

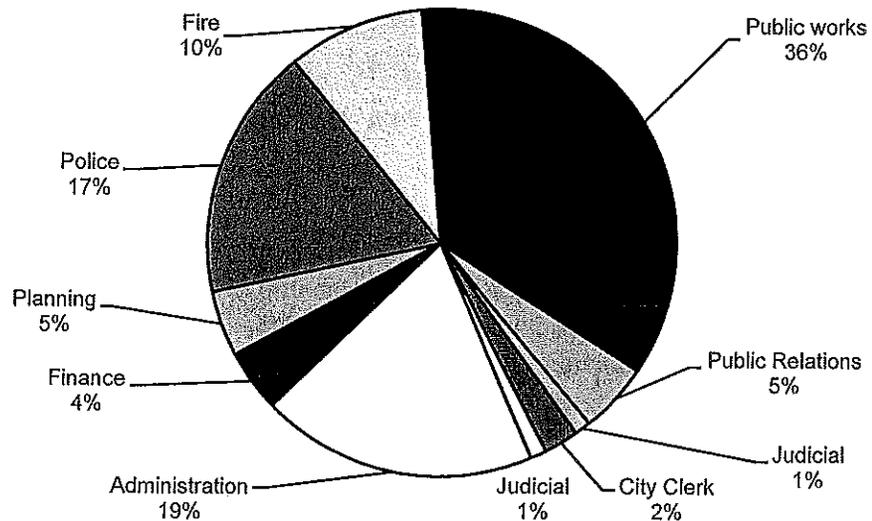

Expenditures for all departments within the General Fund equaled to \$4,380,349, which is \$168,368 less than was expended in 2012. Decreased expenditures within the Public Works Department for equipment and capital purchases is the primary reason for this overall decrease. General Government expenditures, which include all departments except Police, Fire and Public Works, had expenditures that equaled \$1,609,537. This is \$40,845 less than in 2012. Public Safety expenditures for the year amounted to \$1,194,118. Public Safety expenditures increased over prior year amounts by \$26,332.

General Fund Balance

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

Revenues were higher than expenditures by \$226,129. This means that approximately 4% of all were available towards the fund's transfer to the Debt Service Fund. In 2012, 6% of all General Fund revenues received were put towards this transfer. The General Fund's balance decreased slightly by \$8,607.

Below is a breakdown of the General Fund expenditures for the year:

Historical Preservation Fund Analysis

The Historical Preservation Fund's most significant source of revenue, historical preservation funding, is also derived from gaming. Like state gaming tax, historical preservation monies are allocated based on a calculation involving each City's proportionate share of gaming taxes paid to the state. The funds are to be used for the preservation and protection of historical building and properties within the City. In 2013, the City received \$445,722 in state grant revenue. This is an increase of \$7,690 or 1% over prior year. The Historic Preservation Fund also collected \$330,904 in revenue from the Black Hawk/Central City Sanitation District for their part in the Lawrence Street Water Line Project and earned approximately \$8,428 in sales from the Visitors Center in 2013. Both of these revenues are classified as miscellaneous.

In 2013, the Historic Preservation Fund had expenditures of \$694,948. Of that amount, \$330,904 was related to the Water Line Project. Funds were also expended for preliminary work on the Nevada Street Rock Wall Project and the funding of non-profit and BID marketing and events for the City. Additionally, 25% of the Planner's salary and all Visitor Center salaries and operations were funded out of the Historic Preservation Fund.

The Historic Tourism expenditures were part of the City's continued efforts in 2013 to support and encourage the non-profit, historical organizations within the City to be open on a more

consistent basis. Total expenditures for the Fund were more than in the previous year by due primarily to the Ennovate lease project expenditures. The overall fund balance for the Historical

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

Preservation Fund decreased by \$227,744 in 2013 due to the aforementioned Lawrence Street Water Line Project and transfer to the Water Fund.

Long-Term Debt

Detailed information relative to all of the City's debt obligations, both bonded and leased can be found in the Notes to the Financial Statements on pages D20-D26.

The City made principal payments in the amount of \$1,084,976 during 2013 and at the close of the year there was a *total* of \$188,516 in outstanding debt principal payments. All of these payments are for governmental activities. The Water Fund had had no long-term debt issued or outstanding. The following chart shows the City's outstanding long-term debts.

<u>Debt</u>	<u>Principle Outstanding</u>	<u>Interest Outstanding</u>	<u>Total</u>
2010 Excise Tax Refunding	-	-	-

Total	607,970	70,696	678,666

2014 Budget

General Fund Revenues

The General Fund reflects an increase in revenues of approximately 4%, or \$193,290 over the 2013 budgeted amount. This slight increase is the result of all property taxes and device fee collections being allocated directly into the General Fund. In previous years, a portion of both revenue sources have been allocated into the Debt Service Fund for bond payments. The City retired all bonds payments in 2013. Therefore, all device fees and property taxes are fully allocated in the General Fund in 2014. This change in revenue allocations would have been higher, but was countered with expected decreases in sales tax and device fee revenues due to the closure of one casino and a decrease in overall gaming activity during 2013.

General Fund Expenditures

Budgeted General Fund expenditures have increased by 6% or \$266,956 from 2013 to 2014 budgeted amounts. As described above, this Budget allocates funding for small scale capital improvement and infrastructure projects. Additionally, funding has been allocated for the purchase of new accounting software, a new snow plow, one new police vehicle and several much needed items within the Fire Department. The total amount of funding for these capital

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

expenditures is \$160,000. Also allocated is \$85,000 in the Public Works Department for the City's partial portion of a grant match for a Stormwater master plan and associated project costs. The second half of the City's required match will be funded in 2015 for a total overall match of

\$170,000. The total amount of the grant was \$100,000. All funding allocations presented in the General Fund's budget are related primarily to continued services, operations and maintenance within all departments. A portion of the increase in General Fund expenditures is related to an increase in personnel costs which are discussed below.

Personnel and Benefits

The 2014 proposed budget authorizes 24 full-time positions and 5 part-time positions. Total expenditures for all personnel and associated costs is \$2,074,683. A chart detailing these positions follows the Budget Message. One notable change is the elimination of the Operations Director position. A 2% cost-of-living increase as well as a possible 3% merit increase has been reflected for all employees. The total cost of the 2% cost-of-living and possible 3% merit increase is approximately \$86,500. Minor changes have been made to the employee insurance plans; the City will continue to pay 90% of the insurance premiums for health, dental and vision. The City's continued retirement match of up to 4% is still active and reflected in this budget. Based upon CML salary survey information, the Pay Plan continues to reflect salaries and wages in the mid-range for most employees.

Historic Preservation Fund

Revenues within the Historic Preservation Fund are budgeted to be \$424,205, a decrease of \$1,045 (1%). This decrease is due to a projected decrease in state historical funds in 2014, resulting from a decline in the City's overall gaming tax revenues. This decline is based upon an overall decrease in gaming activity, as well as, the loss of one casino in 2013. Expenditures budgeted within the Historic Preservation Fund are \$433,794. This is a decrease of \$31,506 (7%) over budgeted 2013 expenditures. The Historic Preservation Fund allocates money for the funding of marketing and event initiatives between the City, businesses and non-profits as well as the personnel and operations of the Visitors Center. This fund also allocates expenditures for the annual Ennovate energy performance contract lease payment and repairs to stabilize the rock wall on Nevada Street. A significant change is an allocation of \$120,000 to the Water Fund and the elimination of historical grants for residents in 2014.

Water Fund

In 2013, the City implemented a new tiered rate billing structure for all residential and commercial water accounts. For 2014, neither commercial nor residential water rates will change. Rather, the City Council has elected to further subsidize the Water Fund, with a transfer from the General Fund in the amount of \$27,781 as well as a transfer from the Historic Preservation Fund in the amount of \$120,000 for capital and infrastructure improvements. An explanation of the rate structures can be found in the Water Fund's introduction pages.

The Water Fund revenue is budgeted at \$636,876. This is a decrease of \$182,150 22% over 2013 budgeted revenues. This decrease is partially related to budgeting for the collection of only

City of Central, Colorado
Management Discussion & Analysis
December 31, 2013

one half of the residential meter paybacks. The full payback amount from commercial customers is budgeted. Expenses within the Water Fund reflect an increase of \$49,617 (7%) over the 2013 allocation. This increase comes primarily from the allocation of \$120,000 for capital and infrastructure improvements within the water system. The budget also allocates funds to complete a small capital improvement project at Chase Gulch.

Request for Information:

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Central, Finance Department, PO Box 249, Central City, Colorado 80427-0249.

City of Central, Colorado
Reconciliation of Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds
To The Statement of Activities
December 31, 2013

Amounts Reported for Governmental Activities in the Statement of Activities
are different because:

Net Changes in Fund Balances-Total Governmental Funds (229,903)

Governmental funds report capital outlays as expenditures. However, in the
Statement of activities, the cost of those assets is allocated over their
estimated useful lives and reported as depreciation expense. This is
the amount by which depreciation (\$2,338,793) exceeded capital
outlay \$78,282. (2,260,511)

Repayment of long-term debt principal is an expenditure in the governmental
funds, but the repayment reduces long-term liabilities in the Statement
of Net Assets. These include payment of bonds \$905,000, payment
on capital leases \$179,976, changes in deferred charges (\$40,386)
change in compensated absences of (\$9,203), and the change in
accrued interest payable of (\$4,225). 1,031,162

Change in Net Position of Governmental Activities \$ (1,459,252)

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

I. Summary of Significant Accounting Policies

The City of Central, Colorado (“City”) was incorporated as a statutory town in 1886. In 1991, voters in the City approved adoption of the City’s “Home Rule” charter as provided for in Article XX of the Colorado State Constitution and the Municipal Home Rule Act of 1971. This granted the City the power of self-government and home rule as well as other municipal powers established by the Constitution and laws of the State of Colorado. The City is the lowest level of government having oversight responsibility and control over all activities within the geographical area organized as the City of Central, Colorado. The City is located in Gilpin County, Colorado and is governed by an elected Mayor and City council. This elected body is responsible for setting policy, appointing the City Manager and adopting an annual budget in accordance with the Home Rule Charter.

The City’s financial statements are prepared in accordance with the U.S. generally accepted accounting principles (“GAAP”). The Governmental Accounting Standards Board (“GASB”) is the group responsible for establishing GAAP for state and local governments through its pronouncements (Statements & Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (“FASB”) issued through November 30, 1989, where applicable and when not in contradiction or conflict with GASB pronouncements. Although the City has the option to apply FASB pronouncements after that date to its business-type activities and enterprise funds, the City has chosen not to do so for consistency and simplicity. The more significant accounting policies established by GAAP and used by the City are discussed below:

A. Reporting Entity

The reporting entity for which financial statements have been prepared and presented include the City (primary government) and any component units for which the City is financially accountable. The City is considered financially accountable for legally separate organizations if any of the following are true: the City is able to appoint a voting majority of that organization’s governing body; if the City is able to impose its will on that organization; if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the City. Organizations that are fiscally dependant upon the City may also be considered a component unit if they are unable to adopt a budget, levy taxes or issue debt without the approval of the City. In addition to these criteria, any organization whose nature and/or significance is such that exclusion from the financial statements would be misleading or incomplete should also be considered a component unit and therefore, part of the reporting entity.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

B. Discretely Presented Component Unit-Central City Business Improvement District

As required by GAAP, the financial statements of the City include those of its component unit, the City of Central Business Improvement District (“BID”). The BID’s financial information is presented in a separate column as a discretely presented component unit to emphasize that the organization is a legally separate entity from the City.

The BID was formed in 1998 by voter approval within defined commercial areas of the City. Voter approval signaled the formation of the BID and allowed for the BID to issue future bonds to finance the construction of the Central City Parkway, known during construction as the Southern Access Road (“Road”). Construction of the Road would permit direct access into the City from U.S. Interstate 70.

The BID completed construction of the Road in 2004 and it was officially open and operational in November 2004. Also in 2004, the City assumed operational responsibility for the Road. While the construction warranty period expired in November 2006, certain issues delayed the BID’s transfer of the Road to the City until February 2007.

A complete copy of the BID’s financial statement can be obtained directly from their administrative office at:

Joe Behm
Central City Business Improvement District
9155 East Nichols Avenue, Suite 330
Centennial, CO 80112

C. Government-Wide & Fund Financial Statements

The City’s basic financial statements are composed of two separate yet related types of financial statements; government-wide statements (illustrates the City’s finances as a whole) and fund statements (illustrates the City’s major funds). Both types of financial statements categorize primary activities as either governmental related or business related. The City’s public safety, road maintenance, public works, administration, and culture & recreation are considered governmental activities. The following two (2) sections will discuss each type of statement and how the two are related more specifically.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

1. Government-wide Financial Statements

The government-wide financial statements focus is illustrating the sustainability of the City as an entity and the change in the City's net assets resulting from activities during the current year. The government-wide financial statements are composed of two (2) separate financial reports that illustrate different aspects of the overall government's financial position. The first of these is the *Statement of Net Position*. In the Statement of Net Position both the governmental and business-type (Water Fund) activities are presented together on a consolidated basis using the full accrual, economic resource basis. The full accrual, economic resources basis recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three (3) sections: invested in capital assets, net of related debt; restricted net assets and; unrestricted net assets. The Statement of Net Position is a snap shot of the entire reporting entity's assets on a certain date; that date being the end of the fiscal year (December 31, 2013).

The second financial report in the government-wide section is the Statement of Activities. Where the Statement of Net Position illustrates what the reporting entity's net assets are, the Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities, the revenues received that supported those functions, and how the difference in these affected net assets over the course of the year. Essentially, the Statement of Activities illustrates how the net assets total was reached over the course of the year.

The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating and capital grants. Program revenues must be directly associated with the function or business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The net costs (by function or business-type activity) are normally covered by general revenue (property and sales taxes, interest income, etc.)

2. Fund Financial Statements

Whereas the government-wide financial statements present a financial picture of the government as a whole, the fund financial statements present financial information for the specific parts of the government. This is done using *funds*. The financial transactions of the City are reported in individual funds that are established to separately account for different types of functions, activities, funding sources, etc. Each

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The fund focus is on *available* resources and budget compliance and is reported using the *modified accrual basis* of accounting. The fund focus and modified accrual basis of accounting is where fund financial reports differ from the government-wide reporting model (with the exception of the business-type activities).

The City reports the following major governmental funds:

General Fund-The General Fund is the City's primary operating fund. It is used to account for resources that are traditionally associated with governmental activities of the City, such as public safety, recreation, planning, legal services, administrative services, etc. which are not legally or by sound financial management required to be accounted for in another fund.

Historic Preservation Fund-The Historic Preservation Fund is a special revenue fund that accounts for gaming funds received from the State of Colorado that are to be used specifically for the purposes of historical preservation. The revenues are received on an annual basis and must be spent on activities and/or programs that the City Council has deemed to benefit and/or enhance the preservation of the City's historic nature.

Debt Service Fund-The Debt Service Fund accounts for the City's debt service payments for the 2010 Excise Tax Refunding bonds, 2010 General Obligation Water Refunding bonds (Series A) and the 2010 General Obligation bonds (Series B).

Impact Fees Fund-The Impact Fee Fund accounts for impact fee revenues received from developer's to mitigate the effects of their presence within the community. The fund's deficit balance is due the costs related to the sole development for which funds have been received being greater (and subsequently paid for out of the General Fund) than the fees received by the development.

The City reports the following proprietary or business-type funds:

Water Fund-The Water Fund accounts for the provision of water services to the citizens and businesses of the City.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

The City reports the following agency or trust funds:

Fireman's Pension Trust Fund-The Fireman's Pension Trust Fund was established to provide pension benefits to the City's volunteer firefighters. Contributions are received from both the City and the State of Colorado, and are held in trust for disbursements to participants upon leaving the pension plan or upon qualified retirement. The City does not budget for the Fireman's Pension Trust Fund.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Measurement focus refers to whether financial statement measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues and expenditures or expenses are recognized in the accounts and reported in the financial statement. Financial statement presentation refers to the classification of revenues by source and expenses by function.

1. Long-term Economic Focus and Accrual Basis

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

2. Current Financial Resources Measurement Focus and Modified Accrual Basis

The governmental fund financial statements use the current financial resources measurement focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collectible within the current period or soon enough thereafter (60 days) to be used to pay liabilities of the current period. Revenues susceptible to accrual include but are not limited to sales and use tax, lodging tax, and interest earnings. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, if any, is recognized when due.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

3. Financial Statement Presentation

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes and special assessments.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise fund are charges to customers for water service.

Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Financial Statement Accounts

1. Cash and Cash Equivalents

The City pools all deposits and the investments of all funds. Each fund's share of the overall pool is readily identified by the City's internal records. All investments are stated at market value. Cash and cash equivalents include demand deposits and local government investment pools. Certain proceeds of debt issues, as well as certain resources set aside for the repayment of said debt issues are classified on the balance sheet as restricted assets because their use is limited by applicable bond covenants. Restricted assets may also include certain deposits that have been limited as to usage pursuant to escrow and similar agreements.

2. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. The allowance for uncollectible accounts receivable in the Water Fund was \$1,500 at December 31, 2013.

3. Prepaid Items

Payments to vendors for services that will benefit periods beyond December 31, 2013 are recorded as prepaid items. The costs of

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

governmental type prepaid items are recorded as expenditures when consumed rather than when purchased.

4. Property Taxes

Property taxes in the State of Colorado are assessed in one year as a lien on the property, but not are not collected by the governmental units until the subsequent year. In accordance with generally accepted accounting principles (GAAP), the assessed but uncollected property taxes have been recorded in the accompanying financial statements as a receivable and as deferred revenue. Property taxes and the related receivable and deferred revenue are collected and recorded in the General Fund and the Debt Service Fund.

5. Capital Assets

Capital assets, which include land, buildings, equipment, vehicles and infrastructure assets (only infrastructure acquired after January 1, 2002), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements.

The City defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated fair value at the date of donation.

Capital outlay for projects is capitalized as the projects are constructed. Interest incurred during the construction phase is capitalized as part of the value of the assets constructed in the business-type activities.

Infrastructure, buildings and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Infrastructure	10-30
Buildings and Improvements	30
Distribution Systems	50
Equipment and Vehicles	5-10

6. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as expenditure and a fund liability of the governmental fund that will pay it. Vested or accumulated vacation leave that is not expected to be liquidated with expendable available financial resources is reported as a liability on the

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

government-wide and proprietary fund financial statements. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees. In accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*, no liability is recorded for non-vesting, accumulated right to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave benefits that is estimated will be paid at the termination of employment.

7. Unearned Revenues

The City reports unearned revenue on its combined governmental balance sheet. Unearned revenue arises when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period.

In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

8. Deferred Inflows & Outflows of Resources

In addition to assets, the statement of financial position and balance sheets will sometimes report a separate section for deferred outflows or resources. This separate financial statement element, *deferred outflow of resources*, represents a consumption of net position and fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position and balance sheets will sometimes report a separate section for deferred inflows or resources. This separate financial statement element, *deferred inflow of resources*, represents an acquisition of net position and fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

9. Long-term Obligations

In the government-wide financial statements, and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type, or proprietary fund type Statement of Net Position.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

10. Net Position

The government-wide financials statements utilize a net position presentation. Net position is categorized as investment in capital assets, restricted and unrestricted.

Net Investment in Capital Assets includes the City's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds that are attributable to the acquisition, construction and/or improvement of those assets.

Restricted Net Position includes assets that have third-party (statutory, bond covenant or granting agency) limitations on their use. The City typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer use until a future project.

Unrestricted Net Position typically includes unrestricted liquid assets. The City Council; has the authority to revisit or alter this designation.

11. Fund Balance

In the governmental fund financial statements fund balance, which is the fund's assets minus its liabilities, is reported. Governmental Accounting Standards Board Statement No. 54 (GASB 54) established criteria for classifying fund balance amounts into specifically defined categories that make the nature and the type of restrictions placed upon those funds more useful and easier to identify. The categories of fund balance form a hierarchy that is based upon the extent to which the City is bound to honor the restrictions that have been placed upon the funds. The categories of fund balance established under GASB No. 54 are:

Non-Spendable Fund Balance-Cannot be spent because the funds are either in a non-spendable form or are legally and/or contractually required to be maintained intact. An example would be inventories and prepaids.

Restricted Fund Balance-Funds that are restricted for a specific purpose based on constraints that have been externally imposed by creditors, grantors, contributors, laws, regulations of other governments or imposed by law through a constitutional provision or enabling legislation. An example would any portion of a fund balance that is required to be maintained for as part of a bond covenant.

Committed Fund Balance-Funds that are constrained for a specific purpose by a resolution or ordinance adopted by the City Council and can only be unconstrained through the same type of formal

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

action that was originally used to establish the commitment. An example would be the Public Property Trust Fund.

Assigned Fund Balance-Funds that are reserved for a specific purpose internally by the City Manager or Finance Director and can be re-assigned without any formal action of Council.

Unassigned Fund Balance-Funds that are unconstrained in any way and are made up of the residual unclassified fund balance amounts.

12. Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund or expenditures or expenses initially made from it that are properly applicable to another fund, are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed.

F. Other Policies

1. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the City's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

2. Credit Risk

Receivables in the City's funds are primarily due from other governments. Management believes that the credit risk related to these receivables is minimal.

3. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first and then unrestricted resources in the following order: committed resources, assigned resources and lastly, unassigned resources as they are available.

4. Subsequent Events

Management has evaluated events through August 31, 2014, the date that these financial statements were available for release, for any occurrences

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

that could have a significant impact on these financial statements. Below are items that management considered significant.

- In February the City Manger resigned and the City paid out a severance package in the total amount of \$56,448.35.
- The City entered into a lease purchase agreement in order to obtain a Freightliner snowplow and associated equipment in May 2014. The total cost of the snowplow was \$172,903. The total amount financed was \$142,903 as a \$30,000 down payment was made. Term of the lease purchase is four (4) years with an annual interest rate of 3.17% and annual payments of \$36,601.18.
- The City entered into a lease purchase agreement in order to obtain a 4 wheel drive front-end loader. The total cost of the loader was \$135,615.45. The total amount financed was \$92,614.45 as a \$43,000 down payment was made. Term of the lease purchase is three (3) years with an annual interest rate of 3.00% and monthly payments of \$2,766.86.
- The City experienced a significant rockslide located on the Central City Parkway in mid August. It is estimated that the repair and stabilization work related to this event will cost approximately \$500,000. This cost is likely to be completely expended during the remainder of 2014.

5. Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative data has not been presented in all statements because such inclusion would make certain statements unduly complex and difficult to understand. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.

II. Stewardship, Compliance and Accountability

A. Budgetary Information

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), except for the proprietary fund (Water Fund). Annual appropriations are adopted for all funds and expenditures may not legally exceed appropriations at the fund level. All appropriations lapse at year-end.

As required by Colorado State Statutes, the City followed the required timetable, as noted below, in preparing, approving and enacting the 2013 Budget.

- i. For the 2013 budget year, prior to August 25, 2012, the County Assessor sent the City an assessed valuation of all taxable property within the City's boundaries.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

- ii. On or before October 15, 2012, the City Manager submitted to the City Council a recommended budget, which detailed the necessary property taxes needed along with other available revenues to meet the City's operating requirements.
- iii. Prior to December 15, 2012, a public hearing on the 2013 Budget was held. City Council adopted the 2013 Budget under Ordinance 12-14. Ordinance 12-14 legally appropriated expenditures for 2013 as well as adopted the required mill levy rate, approved Pay Plan and the 5 year Capital Improvement Plan.
- iv. Also prior to December 15, 2012, the Finance Director certified to the County Commissions the adopted levy rate that derived the necessary property taxes as reflected in the 2013 budget adopted by Council.
- v. After adoption of the budget resolution, the City may make the following changes to the adopted budget:
 1. Transfer appropriated money between funds;
 2. Approve supplemental appropriations to the extent of revenues in excess of estimated revenues in the budget;
 3. Approve emergency appropriations, and
 4. Reduce appropriations for which originally estimated revenues are deemed insufficient.

Taxes levied in one year are collected in the following year. Thus, taxes certified in December of 2012 were collected in 2013 and taxes certified in December 2013 will be collected in 2014. Taxes are due on January 1st of the collection year. However, they may be paid in either one lump payment (no later than April 30th) or two equal installments (no later than February 28th and June 15th) without being assessed any interest or penalty. Taxes not paid within the prescribed time are assessed interest at the rate of one percent (1%) per month until paid. Unpaid amounts and the accrued interest on said amounts become delinquent on June 16th of each collections year.

During 2013, supplemental budget appropriations for four funds were necessary. Those funds with their original and supplemental appropriations are listed on the following page. The total supplemental appropriations were \$1,150,813. The budgetary comparison statements reflect both the original and final budget amounts adopted by the City.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

<u>Fund</u>	<u>Original</u>	<u>Final</u>	<u>Increase</u>
General	\$ 4,197,332	\$ 4,615,085	\$ 417,753
Historic Preservation	\$ 400,300	\$ 1,125,300	\$ 725,000
Impact Fees	\$ -	\$ 5,960	\$ 5,960
Water	\$ 736,041	\$ 738,141	\$ 2,100
Total Appropriation	\$ 5,333,673	\$ 6,484,486	\$ 1,150,813

A detail of the additional expenditures/expenses that comprised the above supplemental appropriations is shown on the following page.

<u>Fund Name</u>	<u>Reason for Appropriation</u>	<u>Supplemental Appropriation</u>
General	Increase in transfer to Debt Service	\$132,000
	Engineering-Rock Wall	\$ 75,000
	BID Marketing	\$131,000
	Repair to Equipment	\$ 50,483
	Special Legal Counsel	\$ 7,552
	Device Fee Rebate	\$ 4,331
	<u>Reflect Original Debt Transfer</u>	<u>\$ 17,387</u>
		\$417,753
Historic Preservation	Lawrence St. Waterline Project	\$660,000
	<u>Correction to Formula Error</u>	<u>\$ 65,000</u>
		\$725,000
Impact Fees	<u>Issuance of Rebate</u>	<u>\$ 5,960</u>
		\$ 5,960
Water	<u>Legal Fees and Litigation</u>	<u>\$ 2,100</u>
		\$ 2,100
TOTAL SUPPLEMENTAL APPROPRIATIONS		\$1,150,813

B. State Compliance

At December 31, 2013, all of the City's funds were in compliance with state statute regarding budgetary appropriations.

C. TABOR Amendment

In November 1992, the Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly referred to as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires (with certain exceptions) advance voter approval for any new tax, tax rate

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

increase, mill levy above that for the prior year, extension of a tax set to expire or tax policy change that will directly cause a net tax revenue gain for any local government.

Effective January 1, 1993, the City's electorate approved the City's collections, retentions and expenditures of the full proceeds of the City's sales and use tax, device tax, State gaming tax and non-federal grants without regard to the limitations imposed by TABOR.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation. If adequate present cash reserves are pledged irrevocably and held for payments in future fiscal years voter approval is not required. TABOR also requires local governments to establish an emergency reserve to be used for declared emergencies only. The reserve is calculated at 3% of fiscal year spending. The City had reserved and restricted \$204,932 for TABOR emergency reserve purposes at December 31, 2012. This is above the required 3% balance of \$155,656 by \$49,276.

The City's management believes that the City is in compliance with the financial provisions of TABOR. However, it is important to note that TABOR is complex and is often subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits, would require judicial interpretation.

III. Detailed Notes on All Funds

A. Deposits and Investments

At December 31, 2013, the City held deposits and investments with the following balances:

	Carrying Amounts
<i>Deposits:</i>	
Petty Cash	\$ 550
Deposits	182,117
	182,667
<i>Investments:</i>	
Investment Pools	1,284,084
	\$1,466,751

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

Cash deposits and investments are reflected on December 31, 2013 balance sheets as follows:

Governmental Activities-Unrestricted	\$ 747,045
Governmental Activities-Restricted	204,932
Fiduciary-Restricted	<u>514,774</u>
	<u>\$1,466,751</u>

i. Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At December 31, 2013, State regulatory commissioners indicated that all financial institutions holding deposits for the City are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be equal to at least 102% of the uninsured deposits.

At December 31, 2013, the City had deposits with financial institutions with a carrying amount of \$182,177. The bank balances with the financial institutions were \$694,095. Of these balances, \$250,388 was covered by federal depository insurance and \$443,707 was covered by collateral held by authorized escrow agents in the names of the financial institutions (PDPA).

i. Investments

The City has invested \$771,045 in the Colorado Government Liquid Asset Trust ("Colotrust"), which is a 2a7-like investment pool established for local government entities in Colorado to pool surplus funds. They operate similarly to money market funds, whereby each share is equal to \$1.00. Investments of the trusts consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury securities. The City has no regulatory oversight of the pool. Colotrust is rated AAAM by Standard and Poors.

The City also has \$513,039 invested with the Fire and Police Pension Association of Colorado ("FPPA") on behalf of its volunteer firefighters. The City has no regulatory oversight for the unrated FPPA pool.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

Interest Rate Risk: In accordance with the City's investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than twenty four months. In the event that the City's portfolio consists of callable securities, the final maturity date of the security is used as the maturity of the security in order to disclose the maximum liability in the City's financial reports.

Credit Risk: State law and City policy limit investments to those authorized by State Statutes including U.S. Agencies and 2a7-like pools. The City's investment policy is to apply the prudent-investor rule, which is as follows: A prudent investor shall exercise the judgment and care, under circumstances prevailing, which men of prudence, discretion and intelligence exercise in the management of the property of one another, not in regard to speculation but in regard to the permanent disposition of funds, considering the probable income as well as the probable safety of their capital.

Pursuant to the City's Home Rule Charter, the City has adopted by resolution an investment policy that governs the types of institutions and investments with which funds may be deposited and business may be transacted. Under this policy, the City may invest in federally insured banks, debt obligations of the U.S. Government, its agencies and instrumentalities, governmental mutual funds and pools including 2a7-like pools and repurchase agreements subject to policy requirements.

Concentration of Risk: The City diversifies its investments by security type, individual financial institutions and maturities. Investments may only be made in those financial institutions which are insured by the Federal Deposit Insurance Corporation ("FDIC"), the Federal Home Mortgage Association ("FHA"), the Federal Savings and Loan Insurance Corporation or Congressionally authorized mortgage lenders and investments that are federally guaranteed. A minimum of 50% of the investable assets of the City will be maintained in U.S. Treasury Obligations, Federal Instrumentality Securities, Repurchase Agreements and Local Government Investment Pools. Financial institutions holding City funds must provide the City with a statement of collateral in the form of a listing of securities pledged and a copy of the certificate from the Banking Authority that state that the institution is an eligible public depository.

B. Restricted Cash and Cash Equivalents

As required by TABOR, at December 31, 2013, the City had restricted cash and/or a cash equivalent account in the amount of \$204,932. The City also had restricted cash related to the FPPA employee benefit plan in the amount of \$1,735 and restricted investments with FPPA of \$513,039.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

C. Component Unit-Deposits and Investments

- i. At December 31, 2013, cash and investments for the BID are classified as follows:

From Statement of Net Position:	
Cash and Investments	\$ 184,166
Cash and Investments-Restricted	<u>4,144</u>
Total	\$ 188,310

Cash and investments as of December 31, 2013 consisted of the following:

Deposits with Financial Institutions	\$ 184,166
Investments-Federated Treasury	
Obligations Fund	<u>4,144</u>
Total	\$ 188,310

- ii. Custodial Credit Risk-The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments. Colorado statutes specify the types of investments meeting defined rating and risk criteria in which local governments may invest. These investments include obligations of the United States and certain U.S. Governmental agency entities, certain money market funds, guaranteed investment contract, and local government investment pools.
- iii. Custodial and Concentration-None of the District's investments are subject to custodial or concentration of credit risk.
- iv. Investments-As of December 31, 2013, the District has the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
Federated Treasury	Less than	
Obligations	one year	<u>\$ 4,144</u>

During 2013, the District's funds that were included in the trust account at the UMB Bank were invested in the Federated Treasury Obligations Fund. This fund is a money market fund and each share is equal in value to \$1.00. The fund is AAAM rated and invests exclusively in the U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. The maturity of the underlying securities is 397 days or less. As of December 31, 2013, the District has \$4,144 invested in the fund, all of which was restricted for the repayment of bond principal and interest.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

D. Accounts Receivable

Receivables at December 31, 2013 for the City, including applicable allowances for uncollectible accounts, were as follows:

	Total Governmental Funds	Enterprise (Water) Fund	Total
Property Taxes receivable	\$ 311,183	-	311,183
Sales, use and other taxes	81,878	-	81,878
Water Consumption	-	8,060	8,060
	<u>393,061</u>	<u>8,060</u>	<u>401,121</u>
Allowance for doubtful accounts	-	(1,500)	(1,500)
Receivables, net	<u>\$ 393,061</u>	<u>6,560</u>	<u>399,621</u>

Governmental funds report deferred inflow of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. This includes \$311,183 of deferred revenue for property taxes levied in 2013 but not available until 2014.

E. Capital Assets

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

i. Excise Tax Refunding Bonds-Series 2010

On October 26, 2010, the City issued \$650,000 in Excise Tax Refunding Bonds with an average interest rate ranging from 3.25% to 3.75%. The net proceeds of this offering along with \$305,000 of the City's funds were utilized to advance refund, on a current basis, \$890,000 of outstanding 2006 Series Excise Tax Refunding Bonds with interest rates ranging from 4.00% to 4.50%. The City chose to advance refund the 2006 bonds in order to reduce its total annual debt service payment on the excise tax bonds by extending the term of the bonds through 2013. Doing so reduced the City's annual debt service payment for 2010 by \$352,968. The advance refund of the 2006 bonds resulted in a present value economic loss of (\$40,849) but provided the City with needed increased cash flow by the reduced annual payment amount.

The 2010 Series bonds have bi-annual payments dates of June 1 and December 1, and are special revenue obligations of the City, payable from certain excise taxes and fees, net of collection costs. The excise revenues consist of a 4% sales and use tax, certain fees and taxes imposed on gaming devices by the City and certain gaming revenues distributed to the City by the State of Colorado. The bonds constitute an irrevocable first lien upon the Net Excise Revenue but not necessarily an exclusive lien. The bonds are not a general obligation debt of the City and are not subject to redemption prior to maturity.

As of December 31, 2013, the 2010 Series bonds were paid in full.

ii. General Obligation Water Refunding Bonds-Series 2010 A

On October 26, 2010, the City issued \$1,215,000 in General Obligation Water Refunding Bonds with an interest rate ranging from 3.00% to 3.375%. The net proceeds of this offering along with \$445,000 of the City's existing funds were utilized to advance refund, on a current basis, \$1,555,000 of outstanding 2006 Series General Obligation Water Refunding Bonds with an interest rate of 4.25%. The City chose to advance refund the 2006 bonds in order to reduce its total annual debt service payment on the general obligation bonds by extending the term of the bonds through 2013 and gaining a lower interest rate. Doing so reduced the City's annual debt service payment for 2010 by \$814,350. The advance refund of the 2006 bonds resulted in a present value economic loss of (\$86,669) but provided the City with needed increased cash flow by the reduced annual payment amount.

The 2010 Series A bonds have bi-annual payment dates of June 1 and December 1, are general obligations of the City and are payable from ad valorem property taxes. The bonds are not subject to redemption prior to maturity.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

As of December 31, 2013, the 2010 Series bonds were paid in full.

iii. General Obligation Water Refunding Bonds-Series 2010 B

On October 26, 2010, the City issued \$310,000 in General Obligation Water Refunding Bonds, with an interest rate of 3.00%. The net proceeds of this offering were utilized to advance refund, on a current basis, \$308,000 of outstanding 1981 Series General Obligation Water Refunding Bonds with an interest rate of 5.00%. The City advance refunded the 1981 bonds in order to reduce its total annual debt service payment on general obligation bonds thereby increasing cash flow and to obtain a net economic gain of \$27,171.

The 2010 Series B bonds have bi-annual payment dates of June 1 and December 1, are general obligations of the City and are payable from ad valorem property taxes. The bonds are not subject to redemption prior to maturity.

As of December 31, 2013, the 2010 Series bonds were paid in full.

iv. Defeased Debt

In addition to the above bond issues, other bonds previously issued by the City have been defeased by the issuance of refunding bonds. The defeased bonds outstanding at December 31, 2013 consist of the 2006 Excise Tax Refunding Bonds in the amount of \$890,000, the 2006 General Obligation Water Refunding Bonds in the amount of \$1,555,000.

v. Capital Lease Payable-Snow Plow

In 2011, the City entered into a lease-purchase agreement to acquire a new truck and all equipment necessary to make the truck into a snow plow. The City entered into a four (4) year lease-purchase agreement that matures in 2014 and has an effective interest rate of 5% for a principal amount of \$155,876. The City used \$75,000 of general funds as a down payment. \$50,477 of the down payment was money received from the City's insurance company for the loss of the old snow plow. The lease-purchase is payable annually on April 5th in a blended payment.

The leased asset and its related obligation are reported as a fixed asset and long-term debt in the governmental activities on the government-wide financial statements. The snow plow has been included in the City's governmental activities fixed assets at the original financed cost of \$233,286.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

As of December 31, 2013, annual debt service requirements to maturity under the lease-purchase agreement are as follows:

<u>Year(s) Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	54,482	2,724	57,206
Totals	\$ 54,482	2,724	57,206

vi. Capital Lease Payable-Street Sweeper

In 2011, the City entered into a capital lease-purchase agreement in order to obtain a new street sweeper. The lease-purchase agreement is for a term of (4) years, matures in 2015 and has an effective interest rate of 3.29% for a principal amount of \$109,825. The lease-purchase is payable annually on January 1st in a blended payment.

The leased asset and its related obligation are reported as a fixed asset and long-term debt in the governmental activities on the government-wide financial statements. The street sweeper has been included in the City's governmental activities fixed assets at the original financed cost of \$109,825.

As of December 31, 2013, annual debt service requirements to maturity under the lease-purchase agreement are as follows:

<u>Year(s) Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	26,946	2,008	28,954
2015	27,931	1,022	28,953
Totals	54,877	3,030	57,907

vii. Capital Lease Payable-Ennovate Energy Contract

In 2011, the City signed into an energy performance contract (EPC) with Ennovate Corporation. The purpose of the EPC was to install and/or upgrade a number of City facility systems with components that were more energy efficient. In doing so, the energy savings from the newly installed or upgraded equipment would defray a portion of the project's costs. In addition to the energy savings, the City would also realize savings from the deferred maintenance items that were being addressed during the project. The main upgrades or installations that were made under this EPC included new HVAC units for City Hall and the Visitors Center, retrofitting all of the Central City Parkway lights to ones that are more energy efficient, retrofitting the lighting in City Hall with energy efficient fixtures and weatherization of all buildings.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

In order to fund the EPC project, the City entered into a lease-purchase agreement with Colorado Business Bank. The term of the lease-purchase agreement was ten (10) years with an effective interest rate of 3.3% for a principal amount of \$489,773. Payments of \$14,426 are due on a quarterly basis.

The leased asset and its related obligation are reported as a fixed asset and long-term debt in the governmental activities on the government-wide financial statements and have been included in the City's governmental activities fixed assets at the original financed cost of \$489,773.

As of December 31, 2013, annual debt service requirements to maturity under the lease-purchase agreement are as follows:

<u>Year(s) Ended December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	44,914	12,788	57,702
2015	46,415	11,287	57,702
2016	47,965	9,737	57,702
2017	49,567	8,135	57,702
2018	51,224	6,478	57,702
2019	52,935	4,767	57,702
2020	54,704	2,998	57,702
2021	56,531	1,171	57,702
Totals	<u>404,255</u>	<u>57,361</u>	<u>461,616</u>

viii. Capital Lease Payable-Public Works Trucks

In 2012, the City entered into a lease-purchase agreement to acquire two (2) new Public Works vehicles and all necessary outfitting equipment.

The City entered into a four (4) year lease-purchase agreement that matures in 2015 and has an effective interest rate of 5.94% for a principal amount of \$125,333. The lease-purchase is payable annually on February 15th in a blended payment.

The leased asset and its related obligation are reported as a fixed asset and long-term debt in the governmental activities on the government-wide financial statements. The Public Works trucks have been included in the City's governmental activities fixed assets at the original financed cost of \$125,333.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

As of December 31, 2013, annual debt service requirements to maturity under the lease-purchase agreement are as follows:

<u>Year(s) Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	30,379	3,716	34,095
2015	32,182	1,913	34,095
Totals	62,561	5,629	68,190

ix. Capital Lease Payable-Police Vehicles

In 2012, the City entered into a lease-purchase agreement to acquire three (3) new Chevy Tahoes for the Police Department vehicles and some of the necessary outfitting equipment.

The City entered into a three (3) year lease-purchase agreement that matures in 2014 and has an effective interest rate of 6.14% for a principal amount of \$95,499. The lease-purchase is payable annually on July 26th in a blended payment.

The leased asset and its related obligation are reported as a fixed asset and long-term debt in the governmental activities on the government-wide financial statements. The Public Works trucks have been included in the City's governmental activities fixed assets at the original financed cost of \$95,499. Additional equipment to properly outfit the vehicles for duty that was purchased outright has also been included in the fixed assets at a cost of \$56,961.

As of December 31, 2013, annual debt service requirements to maturity under the lease-purchase agreement are as follows:

<u>Year(s) Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	31,795	1,952	33,747
Totals	31,795	1,952	33,747

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

x. Combined Debt Service for Governmental Activities

The following schedule illustrates the City's combined annual debt service requirements (items i. through ix. above) to maturity for governmental activities long-term debt as of December 31, 2013.

<u>Year(s) Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	188,516	23,188	211,704
2015	106,528	14,222	120,750
2016	47,965	9,737	57,702

2019	52,935	4,767	57,702
2020	54,704	2,998	57,702
2021	56,531	1,171	57,702
Totals	\$ 607,970	70,696	678,666

xi. Compensated Absences

The City has adopted policies providing for employee accumulation of sick and vacation pay. Earned vacation pay accrued on a graduated scale from the date of employment and employees are allowed to accrue vacation leave to a maximum of 240 hours for employees who have been with the City less than 5 years and up to 312 hours for employees who have been with the City for 5 years or more. Sick hours are accumulated with no cap but only employees that have been employed with the City since prior to March of 2003 receive any payout (maximum of 80 hours) upon the end of employment. Accrued vacation hours vested are payable upon the end of employment up to the maximum accrued hours allowed and noted above. Accrued compensated absences are paid from resources accumulated in the General Fund, Historical Preservation Fund and Water Fund.

xii. Conduit Debt-Central City, Colorado Variable Rate Demand Multifamily Housing Revenue Bonds (Gold Mountain Apartment Project) Series 1996 and 1997

These bonds were issued in 1996 and 1997 in an aggregate principal amount of \$12,440,000 to finance construction of multi-family housing projects within the City. The 1996 bond series matures April 1, 2029 and the 1997 bond series matures December 25, 2030. The bonds are solely payable from, and are secured by, a pledge of revenue from loan agreements between the City, Gold Mountain Village I Limited Partnership and Gold Mountain Village II Limited Partnership. The borrower's obligation is secured by Deeds of Trust, Security Agreements, Financing Statements and assignment of rents and leases. In 2006, the

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

bond agreement was modified to terminate the existing credit facility and to secure the bonds only by the Deeds of Trust.

The bonds are a special limited obligation of the City, payable solely from the specified revenues of the projects and do not constitute debt or indebtedness of the City. As of December 31, 2013, the outstanding principal balance of the bonds was \$2,915,000.

H. Component Unit-Long-term Debt

i. Limited Tax General Obligation Bonds-Series 2003A

On June 17, 2003, the BID issued \$45,200,000 of Limited Tax General Obligation Bonds. The bonds are due on December 1, 2023 with an interest payable semi-annually on June 1 and December 1 of each year beginning December 1, 2003 with an interest rate of 9.75% annually.

The bonds were issued for the purposes of (i) financing costs of the acquisition, construction and installation of the Central City Parkway, and (ii) paying certain costs and expenses in connection with the issuance of the bonds. The Bonds were issued in increments of \$100,000 and any integral multiples of \$5,000 in excess thereof. The bonds are subject to prior redemption of the District, as a whole or in integral multiples of \$5,000 on December 1, 2013, and on any date thereafter at a redemption price equal to the principal amount of the bonds plus accrued interest without redemption premium. The bonds were secured by the pledge of receipts from a levy by the BID of general ad valorem taxes. The initial mill levy assessed was 80 mills and may vary based upon the total assessed valuation of properties within the BID. However, the levy is subject to a maximum assessment of 80 mills.

During 2013, the BID underpaid its scheduled 2013 debt service interest payments by \$4,901,151. The total outstanding interest due as of December 31, 2013 was \$28,646,029 which includes interest on this unpaid interest as well as interest on the outstanding interest from 2006 through 2013. Additions to accrued interest include current interest, accrued interest and compounded interest. Outstanding interest compounds on each interest payment date at the interest rate borne by the bonds.

The transactions related to these debt service requirements as of December 31, 2013, are shown below:

Limited Tax GO				
Bonds-Series 2003A	45,200,000	-	-	45,200,000
Accrued Interest	23,744,878	6,754,804	1,853,653	28,646,029
Totals	68,944,878	6,754,804	1,853,653	73,846,029

On January 5, 2007, the BID approved the First supplemental to Indenture of Trust, which amends the original bond indenture by providing that on the first business day of any month, if the amount on deposit in the Debt Service Fund is at least \$50,000, the BID shall make a payment to the bondholders towards any past due debt service.

The ability of the BID to make the scheduled payments of principal and interest along with the unpaid interest from 2006 through 2013 with the anticipated revenues for 2014 is in doubt under the current structure. The District continues to negotiate a restructure of the bonds. The maximum that can be paid on District indebtedness, including the Series 2003A Bonds, is \$114,000,000.

ii. Tax Prepayment Agreement

In 2005, the BID entered into a Tax Prepayment Agreement with Centaur Colorado, LLC. Under the terms of the agreement, Centaur remitted \$346,875 to the BID for deposit in the Debt Service Fund. The funds represent a credit which will be applied against the payment of taxes owed to the District by Centaur when and to the extent that the District's revenues exceed the amounts required for debt service. Centaur intends that its payment be recognized as a prepayment of taxes currently due or to become due in the next tax collection year. The District recognizes the credit as a tax prepayment for the benefit of Centaur. Centaur shall be able to apply the credit against any amounts owed to the District on the earlier or either immediately before refunding obligations are issued or when the District has available funds from revenues that are not obligated to the debt service payment.

The initial term of this agreement matured on December 31, 2005. The term can be extended upon appropriation of the credit in the subsequent year. If in the budget in the subsequent year, the District is unable to pay the full amount of debt service, the District is not obligated to recognize the credit in that year and the term is automatically extended from year to year.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

iii. Changes in Long-term Debt-Component Unit-BID

The following is an analysis of changes in long-term debt for the period of December 31, 2013.

	<u>Balance 1/1/13</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance 12/31/13</u>	<u>Due in One Year</u>
Limited Tax General Obligation Bond-Series 2003 A	\$ 45,200,000	-	-	45,200,000	10,000,000
Tax Prepayment Agreement	346,875	-	-	346,875	-
	<u>\$ 45,546,875</u>	<u>-</u>	<u>-</u>	<u>45,546,875</u>	<u>10,000,000</u>

I. Unearned Revenue

- i. The City entered into an agreement in 1998 with Albert Frei & Sons, Inc. ("Frei") to provide 20 acre feet of water annually from 1998 through 2017. In return, Frei performed wetlands mitigation work on behalf of the City along the banks of Clear Creek. In 2006, the agreement was amended to increase the water provided in 2006 and 2007 to 120 acre feet. During those years, the City recognized \$32,000 annually in the proprietary fund. The original agreement valued both the 20 acre feet of water from 1998 through 2017 and the wetland mitigation work at \$640,000. Therefore, the City recognizes \$21,333 annually in the proprietary fund through 2017.

The unearned revenue relating to water to be provided in future years is recorded as unearned revenue. At December 31, 2013, unearned revenue relating to this agreement totaled \$85,338.

- ii. In 2003, the City entered into an agreement with Andrew and Carolyn Goltra (the "Goltra's"), under which the Goltras transferred certain property rights to the City (for use in construction of the Central City Parkway). In return, the City agreed to waive future development fees incurred by the Goltras if and when the Goltras develop their property. The amount of such future development fees, which is reflected on the City's financial statements as unearned revenue, is to increase or decrease in proportion to the amount that City tap fees are increased or decreased on an annual basis. At December 31, 2013, unearned revenue relating to this agreement totaled \$145,655.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

J. Benefits

All City employees, except police and volunteer firefighters, participated in the Federal Social Security system for which the City has no liability, except for amounts withheld and any related statutory amounts. The City has also established the following retirement plans for eligible employees.

i. General Employees Retirement Plan-Section 401 (a) Plan

For all permanent City employees, other than sworn police officers, the City offers a defined contribution money purchase pension plan (the "Retirement Plan"). The Retirement Plan, which is administered by ICMA Retirement Corporation ("ICMA"), offers employees with 180 days of eligible service the opportunity to build retirement savings by pre-tax contributions of salary. The City matches these contributions up to 4%. Employees may also make voluntary contributions to the Retirement Plan, but may not contribute in excess of the annual federally allowed limit.

Retirement Plan investment purchases are determined by the individual participants and therefore, the Retirement Plan's investment concentration varies between participants.

For 2013, the City contributed \$22,942 to the Retirement Plan on behalf of participating employees.

While the City is the trustee of the Retirement Plan, it has no liability for losses under the Retirement Plan. Accordingly, the Retirement Plan is not in the City's financial statements.

ii. Police Department Money Purchase Plan

The contributions to the statewide money purchase retirement plan ("Money Purchase Plan") on behalf of all sworn police officers. The Money Purchase Plan, which is administered by the Colorado Fire and Police Pension Association ("FPPA"), is a defined contribution plan. Therefore, the City has no liability or requirements to fund the retirement of its police officers over and above the contributions to the Money Purchase Plan. The Money Purchase Plan requires that the City contribute 8% of each participating employee's annual compensation. Each participant is required to contribute an equal amount. All contributions to the Money Purchase Plan vest immediately to the participant.

Money Purchase Plan investment purchases are determined by the individual participants. Therefore the Money Purchase Plan's investment concentration varies between participants.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

For 2013, the City contributed \$33,123 to the Money Purchase Plan on behalf of participating employees. This represents the required 8% contribution based on the 2013 covered payroll of \$414,043.

The City is not the trustee for the Money Purchase Plan and has no liability for losses under the Retirement Plan. Accordingly, the Money Purchase Plan is not part of the City's financial statements.

iii. Fire Department Pension Plan

The City and all full-time, paid firefighters employed by the City, participate in the Statewide Defined Benefit Plan; a cost-sharing multiple-employer defined pension plan. The Plan is administered by FPPA.

The Statewide Defined Benefit Plan provides retirement benefits for members and beneficiaries, together with death and disability coverage provided through the Statewide Death and Disability Plan (also administered by FPPA). Title 31, Article 30 of the Colorado Revised Statutes ("C.R.S."), as amended, assigns the authority to establish benefit provisions under the Statewide Defined Benefit Plan to the Colorado state legislature. FPPA issues a publicly available annual financial report that includes the financial statements and required supplementary information for both the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. The report may be obtained by writing to or calling:

FPPA of Colorado
5290 DTC Parkway, Suite 100
Englewood, CO 80111
(303) 770-3773

As required by state statute, both the City and City employees participating in the Statewide Defined Benefit Plan each contribute 8% of eligible compensation. During 2013, the City and City employees each made contributions to the Plan of \$5,548 based on covered payroll for 2013 of \$69,355.

iv. Volunteer Fire Department Pension Plan

The City offers its volunteer firefighters a defined benefit pension plan ("Fire Pension Plan") which is also administered by FPPA. Assets of the Fire Pension Plan are commingled for investment purposed in the Fire and Police Members' Benefit Fund; a multi-employer defined benefit pension plan administered by FPPA. The Fire Pension Plan provides retirement benefits for members and beneficiaries according to the provisions as enacted and governed by the Board of Directors of the Fire Pension Plan,

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

Title 31, Article 30 of C.R.S., as amended, established basic benefit provisions under the Fire Pension Plan. The FPPA issues a publicly available annual financial report that includes the financial statements and required supplementary information for both the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. That report may be obtained by writing to or calling:

FPPA of Colorado
5290 DTC Parkway, Suite 100
Englewood, CO 80111
(303) 770-3772

BASIS OF ACCOUNTING: The financial statements of the Fire Pension Plan are prepared using the accrual basis of accounting. Member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Fire Pension Plan. Investments are presented at fair value except for short-term investments, which are recorded at cost, which approximates fair value.

FUNDING POLICY: During 2013, the City contributed \$7,600 and the State of Colorado contributed \$6,417 for total contributions of \$14,017 made to the Fire Pension Plan.

ANNUAL PENSION COSTS: For the year ended December 31, 2013, annual pension costs were \$17,137. Eligible firefighters currently receive \$500 per month in pension benefits.

ACTUARIAL INFORMATION: An Actuary determined the Annual required Contribution ("ARC") as of January 1, 2013 (the last available study) using the "entry age actuarial cost method". The significant actuarial assumptions used in the valuations as of January 1, 2013 (and changes from the previous study) were as follows:

- Source of life expectancies: the RP-2000 generational mortality tables using scale AA.
- Retirement: retirement age of 50, with 20 years of service;
- Separation: Graduated rates based on age, for all withdrawals;
- Monthly pension benefits: \$500 per month;
- Inflation rate: 3.5% to 3% per annum;
- Investment return: 8% to 7.5% per annum, net of operating expenses, compounded annually;
- Amortization method: Level dollar-open; and
- Asset valuation method: Actuarial valuation using 5-year smoothed fair market value

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

Required disclosures for the most recent actuarial valuations and the two preceding studies are as follows:

	Actuarial Valuation Dates		
	(Last Available Studies)		
	<u>Jan. 1, 2013</u>	<u>Jan. 1, 2011</u>	<u>Jan. 1, 2009</u>
<i>Net Assets available for benefits</i>	\$ 473,887	419,048	351,421
<i>Actuarial accrued liability</i>	<u>557,514</u>	<u>446,499</u>	<u>364,730</u>
<i>Funding excess/ (Unfunded actuarial liability)</i>	<u>\$ (83,627)</u>	<u>(27,451)</u>	<u>(13,309)</u>
<i>Funded Ratio</i>	85%	94%	96%

The actuarial determined that the 2013 level of contribution was not sufficient to meet the financing objectives of the plan. For that reason, the City budgeted additional funds for the contribution in the 2014 Budget to ensure solvency of the plan.

v. Deferred Compensation Plan-Section 457 Plan

All City employees are eligible to participate in a deferred compensation plan created in accordance with Internal Revenue Code section 457 (“Deferred Compensation Plan”). The Deferred Compensation Plan, which is administered by ICMA, allows all City employees the opportunity to defer a portion of their salary until future years. All compensation deferred under the Deferred Compensation Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are to be held in trust for the exclusive benefit of the participants and their beneficiaries. Amounts contributed to the Deferred Compensation Plan are not available to employees until termination, retirement, death or unforeseeable emergency. Participants may elect to defer any percentage of their annual compensation, provided that the total annual contributions do not exceed the annual limit as established by the Internal Revenue Service. The City matched up to 4% of employee contributions in 2013. The City’s match on this deferred compensation Plan is reduced for any match received under the Retirement Plan.

Deferred Compensation Plan investment purchases are determined by the individual participants. Therefore, the Deferred Compensation Plan’s investment concentration varies between participants.

For 2013, the City contributed \$14,357 to the Deferred Compensation Plan on behalf of participating employees.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

While the City is the trustee for the Deferred Compensation Plan, it has no liability for losses under the Deferred Compensation Plan. Accordingly, the Deferred Compensation Plan is not part of the City's financial statements.

vi. Volunteer Firefighter Length of Award Service Plan

In 2007, the City adopted the Volunteer Firefighter Length of Service Award Plan (LOSA) under Resolution 09-07 in order to compensate the City's volunteer firefighters in accordance with Section 457 of the Internal Revenue Code. The Plan replaced the former system of pay-per-call response by volunteers. The Length of Service Award Plan is acceptable under Internal Revenue Code Section 457 and allows the firefighters to keep their volunteer status and therefore, their FPPA benefits.

The Plan awards each volunteer who has met established requirements with regards to training hours and responding to at least 15% of all calls during the year. The amount of the service award given is based upon years of service with the Department as shown below. Annual service awards are accrued and paid out upon separation from service with the Fire Department. The cumulative total amount of all annual rewards earned is recorded as a liability in the City's General Fund and reflected as such in the financial statements. At December 31, 2013, the City awarded \$12,014 in service awards. Total liability for this Plan at the close of 2013 was \$72,561.

Years of Service as of 12/31/2008	Award Amount
1	\$600
2-5	\$700
6-10	\$1,000
11-15	\$1,500
16-20	\$2,000
21+	\$3,000

K. Employee Health Benefits

The City provides basic, major medical, optional dental, vision and long-term disability to all full-time employees and their eligible dependants. The plan is funded 90% by city contributions and 10% by employee contributions. Benefits are provided through third-party insurance providers.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

L. Post-Employment Health Care Benefits

All City employees covered by COBRA may continue their health insurance for up to 18 months after a reduction in work hours or termination of employment for reasons other than “gross misconduct”. Eligible dependants may continue coverage for up to 36 months. The City recognizes no cost for such coverage, since its participants must reimburse the City for 100% of premium costs during the extended coverage period.

M. Risk Management

The City is exposed to various risks of loss related to workers’ compensation and general liability unemployment. The City has acquired commercial coverage for these risks and any settled claims are not expected to exceed the commercial insurance coverage.

The City is also exposed to the risks of loss related to torts, theft, damage and/or destruction of assets and errors and omissions. To address such risks, the City is a participant in a public entity risk pool administered by Colorado Intergovernmental Risk Sharing Agency (“CIRSA”). CIRSA’s operations are funded by contributions from member governments. Coverage is provided in the amount of \$250,000 per claim or occurrence for property, \$1,000,000 per claim or occurrence for liability and \$150,000 per claim or occurrence for crime. CIRSA has also acquired additional excess coverage from outside sources. While the City may be liable for any losses in excess of this coverage, the City does not anticipate such losses at December 31, 2013.

Surpluses or deficits realized by CIRSA for any given year are subject to change for such reasons as interest earnings or invested amounts for those years and funds, re-estimation of losses for those years and funds and/or credits or distributions from surplus for those years or funds.

The City’s share of CIRSA’s assets, liabilities and fund equity as of December 31, 2013 is as shown on the following page:

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

	<u>Equity Ratio</u>	<u>Share of Surplus</u>
Property and Casualty Pool:		
Operating Fund	0.240%	\$ 10,236
Loss Funds (2001-2013)	0.465%	\$ 64,692
Pooled Excess Fund	0.008%	\$ 410
Reserve Fund	0.416%	\$ 35,400
 Workers' Compensation Pool:		
Operating Fund	1.106%	\$ 6,023
Loss Funds (1995-2012)	0.931%	\$ 38,005
Excess Liability Fund	0.405%	\$ 5,413

Total Revenues	\$ 22,214,452
Total Expenses	17,275,363
Income (Loss) before Distributions	<u><u>\$ 4,939,089</u></u>

N. Commitments and Contingencies

i. Claims

During the normal course of business the City incurs claims and assertions from various agencies and individuals. The City and its legal counsel are currently working on pending legal actions against the City which could result in judgments against the City. In the opinion of legal counsel and the City's management, such claims would not have a material effect on

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2013.

ii. Federal and State Grants and Financial Sources

The City receives financial assistance from federal and state governmental agencies in the form of grants and other funding agreements. Disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the underlying agreements and are subject to audit by the grantor agencies. Disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. The City received a Water Quality grant from the Colorado Department of Public Health and Environment as well as a grant from the Department of Local Affairs for the planning and design of a new Public Works facility. The City is complying with all applicable rules and regulations specified in the grant awards. Further, due to the relatively small nature of the grant awards, management does not feel that there are any compliance issues that may have an effect on the overall financial position of the City at December 31, 2013.

iii. Pools

The City is a member of a public entity risk pool, as discussed in Note M above. The public entity risk pool has a legal obligation for claims against its members to the extent that funds are available in their annually established loss funds and amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds are direct liabilities of the participating members. CIRSA has indicated that the amount of any excess losses would be billed to members in proportion to their contribution in the year such excess occurs, although they are not legally required to do so. The ultimate liability to the City arising from claims not covered by this public entity risk pool is not determinable at this time. However, City management feels that the outcome of any such claims will not have a material adverse effect on the City's financial statements at December 31, 2013.

iv. Rebate of Device Fees

In 2004, the City entered into an agreement with Tollgate Venture, LLC ("the Developer"). Under the terms of this agreement, the developer agreed to provide public parking in a parking structure constructed by the developer. In return, the City agreed to rebate 70% of all device fees paid to the City by the developer for a period not to exceed ten years or 60% of the actual construction costs of building the parking garage, whichever occurs first.

City of Central, Colorado
Notes to the Financial Statements
December 31, 2013

At December 31, 2013, the City had rebated \$3,605,812 since 2006 of device fees related to this agreement. Based on the fact that the amount of the rebate is directly related to the number of devices in the casino, the City anticipates that the Agreement will terminate during the 3rd quarter of 2016 when the ten year period has been satisfied.

O. Concentrations

The City is extremely dependent upon gaming device fees and the State of Colorado's annual gaming revenue disbursement as major sources of revenue. These revenue sources totaled approximately \$3,715,199 in 2013 and represent 74% of the City's total general governmental revenues as shown in the Statement of Activities for the year. This is an increase in concentration of 9% from 2012. The general fund is especially dependent upon gaming device fees and the annual gaming revenue disbursement as these revenues totaled \$3,507,889 and almost 73% of General Fund's total 2013 revenues.
