

Appendix E.2

County Road System Standards

The chart listed below establishes minimum standards for new or rebuilt County roads. These standards shall be considered minimum unless more stringent standards are established by the Board of County Commissioners.

<u>Classification</u>	<u>Pavement Type</u>	<u>Number of Lanes</u>	<u>Lane Width</u>	<u>Shoulder Width</u>	<u>Right of Way</u>
Primary	Gravel	2	12'	4'	60'
Secondary	Gravel	2	11'	4'	60'
Minor Secondary	Natural	2	10'	1'	60'

Washington County generally follows the published policies and standards set forth in the Colorado Division of Highways *Roadway Design Manual* and all future County roads will be constructed using the manual as a guideline. The Board hereby acknowledges the provisions of C.R.S. 43-2-114 for the County primary road system.
