**APPLICATION FOR BRUCELLA OVIS FLOCK  
CERTIFICATION/RE-CERTIFICATION**

Date: \_\_\_\_\_

Applicant: \_\_\_\_\_

Address: \_\_\_\_\_ Tele: \_\_\_\_\_

City, State, Zip: \_\_\_\_\_

Flock Name: \_\_\_\_\_

Flock Information: \_\_\_\_\_

- 
1. Number of test eligible rams in flock \_\_\_\_\_
  2. Date of test(s) and Veterinarian performing the tests for Flock Certification/Re-certification

\_\_\_\_\_  
\_\_\_\_\_

I certify that the above test eligible rams were tested and passed two negative serology tests 45-120 days apart for initial certification or were tested once this year for re-certification. My flock is a closed flock. There have been no intermingling or mixing of my breeding animals male or female with any sheep of unknown B. ovis status. Any animals that mixed were isolated and the rams were tested for B. ovis at least 45 days after the mixing occurred (details and dates of tests are attached). All male animals purchased and added to my flock were tested and found negative for B. ovis, quarantined and kept separated from my animals and retested for B. ovis and found negative 45 to 120 days after their first test.

\_\_\_\_\_  
Owner/Manager Signature

“Test eligible ram” means any ram over six months of age which was born prior to January 1, of the current year (Rams are exempt from test in the year of their birth).
