

# COMING SOON!

SEPTEMBER 24, 2018

Colorado  
Applicant  
Background  
Services

## CBI Notification:

- ✚ The CBI is currently in the process of implementing the Colorado Applicant Background Services (CABS) program in response to Senate Bill 17-189.
- ✚ The CBI recently awarded two contracts allowing third party vendors to electronically print and submit non-criminal applicant fingerprints for the State.
- ✚ The vendors who were awarded contracts to participate in the CABS program are Idemia (via IdentoGO Centers) and American Bioidentity (via Colorado Fingerprinting).
- ✚ These vendor services will be located throughout the State, increasing applicants' ability to obtain fingerprints in a timely manner.
- ✚ Applicants will first enroll and schedule an appointment on the vendor's enrollment website.
- ✚ The estimated roll-out date for the CABS program is September 24, 2018.
- ✚ Applicants are encouraged to utilize the CABS program for fingerprinting services.
- ✚ Physical fingerprint cards will not be accepted thirty days after the CABS program roll-out.
- ✚ Agencies who currently complete electronic live scan fingerprinting and submission of those prints to the CBI for their applicants in-house will have until July 1, 2021 to participate in the program to allow for end-of-lifespan of their current live scan machines.
- ✚ Beginning July 1, 2021 the State will not accept non-Law Enforcement and non-CABS submissions.
- ✚ The CABS program will not impact the way the results of the background checks are currently administered. All background check results will continue to be provided to the respective agency accounts via the CBI's Secure Document Delivery System (SDDS) as they are today.
