

The Energy Savings for Schools Program

Energy Resources for Rural Schools *Ideas. Support. Savings.*

- Free** On-site energy and water audits from a team of experts
- Free** Evaluation of renewable energy opportunities
- Free** Technical support and energy coaching
- Free** Implementation support and help identifying existing funding and financing options for completing projects
- Free** Recognition for your school's efforts and opportunities to engage students
- Free** Energy monitoring device to measure electricity use and access to real-time data on a web-based dashboard (available on case-by-case basis)

Why your school should participate in the Program:

- ✓ Reap tangible energy, water, and cost savings
- ✓ Improve your school's learning environment with better lighting, heating, and cooling
- ✓ It's easy and seamless with minimal school staff requirements
- ✓ Benefit from technical services customized for the needs of rural schools to get projects implemented
- ✓ Build your energy management knowledge by connecting and exchanging ideas with peer schools
- ✓ Be recognized for your efforts and share your story with your community and beyond
