

ANNUAL COLORADO AQUACULTURE PERMIT STOCKING REPORT INFORMATION/INSTRUCTIONS

If you stocked warm or cool water fish, excluding fathead minnow and grass carp, west of the Continental Divide, you are required to submit an annual report of fish stocked in Colorado to Colorado Parks and Wildlife (CPW) as a condition of obtaining stocking authorization. This information is required for CPW resource management. Client and commercial information is protected from open records act requests. Specific client names or pricing data are not requested to further protect your business. CPW has developed this format for providing needed information without revealing sensitive client, pricing, and/or other data.

The CPW would prefer to receive this information electronically via e-mail if possible. A spreadsheet in MS Excel is preferred and can be sent to you upon request. Clearly printed handwritten forms or copies of legible logs or other records can be utilized as long as all the requested information is provided.

This annual report must include stockings for a calendar year. Species can be written in or identified by abbreviations as follows:

LMB largemouth bass	CRA crappie	YPE yellow perch
RBT rainbow trout	NAT cutthroat trout	BGL bluegill
SMB smallmouth bass	CCF channel catfish	SXW wiper
BRK brook trout	WAL walleye	(For hybrids, list species
LOC brown trout	GSD gizzard shad	crossed)
	SNF green sunfish	

Average size information on the form requests total number by category (eggs or fry; subcatchable <9 inches; catchables >9 inches). Listing average length and number of fish, or number per pound and number of fish, would also provide the needed information if this is the format you use. Locating the specific water where fish are stocked is a critical component needed for CPW fisheries management efforts. Stocking locations should be clearly identified using GPS coordinates.

New requests for stocking authorization will not be approved until an annual report is received. Please contact the appropriate CPW personnel if you have questions:

ANNUAL COLORADO AQUACULTURE PERMIT STOCKING REPORT

License/Permit holder's name _____

Address _____

Contact numbers _____

Signature/Date _____

Annual stocking information to be provided for the period of January 1 to December 31. List fish/eggs stocked by total number for each species, size, originating and/or distributing facility, stocking date, and destination facility and/or stocking location. Annual Stocking Report information is preferred to be submitted in electronic format (spreadsheet in MS Excel if possible). Clearly legible handwritten forms are acceptable.

New stocking authorizations will not be issued until Annual Reports are received. Colorado Aquaculture permitted facilities must report where all fish came from (originating facilities) and their destinations (Colorado Aquaculture Facility, Colorado Aquaculture permittee transferred to, and/or stocking location). Out of state permitted facilities must report the destination facility of imported fish or the stocking location.

Originating Facility Name/Location	Date(s) stocked	Species (and strain when applicable)	Average size (list total number)			Destination (Colorado aquaculture facility name & location; or stocked water description & location) STOCKING LOCATION: GPS (UTM coordinates)
			Eggs/ Fry	Subcatchable (<9 inch)	Catchable (>9 inch)	

Originating Facility Name/Location	Date(s) Stocked	Species (and strain when applicable)	Average size (list total number)			Destination (Colorado aquaculture facility name & location; or stocked water description & location) STOCKING LOCATION: GPS (UTM coordinates)
			Eggs/ Fry	Subcatchable (<9 inch)	Catchable (>9 inch)
