Project Announcement: Rockfall Mitigation on US 6 Clear Creek Canyon

DAYTIME FULL ROAD CLOSURES EXPECTED

Project Overview

The Colorado Department of Transportation (CDOT) will conduct daytime full road closures on US 6 Clear Creek Canyon between CO 93/CO 58 and CO 119, from mile point (MP) 260 to MP 272 for rockfall mitigation.

Apex Rockfall Mitigation is the contractor for this \$3 million project. Construction will include rock-scaling, removal of scaled rock, installation of rock reinforcement, rock anchors, mesh anchors, and 285,000 SF of wire mesh. This project is necessary to protect the safety of motorists and to prevent any road damage or unexpected closures caused by a natural rockslide.

Project Schedule and Travel Impacts

Rockfall mitigation on US 6 will start Tuesday, February 20, 2018, at MP 260 and will continue to MP 272. The project will be in operation Monday through Wednesday, 10 a.m. to 5 p.m. and Thursday, 6 a.m. to 5 p.m. During this time, there will be no parking or access for recreation use. The project will have a summer shutdown from May 1, 2018 to October 31, 2018. The project will resume November 1, 2018 with an anticipated completion date of April 30, 2019.

Motorists can use I-70 as an alternate route during construction hours/full closure.

PROJECT INFORMATION

If you have any questions or concerns or if you would like to be added to our Public Outreach contact list and receive construction updates, please contact us at the phone number or email address below:
