

Deviated Fixed Route Service

The shuttle bus is a deviated fixed route bus service. This means that the bus operates along a fixed route and keeps to a timetable, but passengers can request to be picked up or dropped off up to one-quarter (1/4) of a mile off of the bus route. After deviating from the route, the bus returns to the same point to continue its run. The pickup and drop off locations will be at the curb. Requests for deviations must be made at least 24 hours in advance, but not more than one week in advance of the requested deviation. For reservations, please call (303) 929-1793.

Due to limited space, trips will be scheduled on a first-come, first-served basis. Furthermore, the shuttle operator reserves the right to determine whether road conditions or foul weather make route deviations temporarily unfeasible at any given time.
