- Divest or Scale Back
COMMENTS FROM WORKSHOP PARTICIPANTS

We are engaged. We are optimistic, and we should be proud.

...interesting that there is such a high degree in variation of where we think we are and where we are...

...motivating...all joining together to understand what our final goal is...

...optimism and commitment and passion of everybody here is going strong...

I appreciate the process.

...thankful for the diversity of the group...

...awesome conversations... unification and single vision...

So much intense thinking...

...clearly this Roadmap is needed...

My confidence is high...we are going to figure out how this all goes together to create a successful Roadmap

Professionally I think this fantastic! As a Colorado resident I’m grateful.

A lot of mystery will have light shed on it...

The HIT Planning Work Group, in response to stakeholder input and the planning process to date, will assimilate, integrate, and refine HIT planning elements, and develop a draft Statewide HIT Plan for further evolution, and eventual adoption, by the eHealth Commission.
NEXT STEPS
TIMELINE
Lay the ground work for developing the Colorado Health IT Roadmap initiatives, which includes:

- Full understanding of health IT-related Acts, Events, and Occurrences (context and environment) - national, federal, and in Colorado
- Full understanding of active and planned projects relevant to the Health IT Roadmap
- Continue to collaborate with and inform key stakeholders

Develop Roadmap-specific vision statement(s) that are based on the objectives and health IT context
