[COLORADO LEGISLATORS PAST & PRESENT](#)

Colorado Joint Legislative Library staff has compiled information on senators and representatives elected or appointed to the Colorado territorial or state legislature.

This online database provides basic information on former and current Colorado legislators as an aid to the general public and researchers. Sources used to compile information include legislative manuals, legislative journals, session laws, abstracts of votes cast, directories, press books, obituaries and other news clippings, and family-supplied information. The newspaper card files of The Denver Post also served as a source of information.

While each legislator is represented here, this database is a work in progress and is by no means complete. The Library does not guarantee the accuracy of the information in the database; errors are possible. If you have more information on any legislator here, please e-mail us or send a letter, with documentation, to:
